

4th Online Meeting Project:

Know yourself better to make the best career choice,

Objectives :

- to know yourself better
- to improve our self-awareness
- to identify and name your points of interests
- to identify the values connected to your interests
- to discover trades / jobs / professional environment related to your interests
- to identify the possible links between your personal fulfilment

Before the online meeting (preparation work to be done)

1) Know yourself better:

- identify your center of interests
- list your strengths (strong points)
- identify the values connected to your interests
- note down your main weaknesses (weak points)

2) Play the game : the professional environments that could appeal to me

- use the 48 numbered photos scanned (enclosed in « materials » on the twinspace)
- observe the different photos keeping in mind the following questions :

« would I like to work in this environment ? Does it appeal to me even if I do not really know what I would do there ?
Why ? What do I like there ? Qualities required ?...

- select the number of the photos you are interested in and complete the grid entitled « the professional environments that appeal to me » developing and explaining why you could be interested in such environments according to your interests, values, strengths...Are they compatible or not with your self-development ? What skills do you need to improve ?

Online meeting :

- Talk about the different pictures you have selected (grid « the professional environments that appeal to me) explaining your choices using the questions suggested above. Do you have common choices ? Different ones ?
- complete the column « what about the other members' selections ? »
- each member of the group keeps the 3 best jobs or professional environments which could help him / her to be in harmony with his / her points of interests / values

What to remember and do :

- **According to what students have done / found / discovered today, create a document describing your dream job**
- **put your work on the twinspace**

PROFESSIONAL ENVIRONMENTS THAT APPEAL TO ME

Photo / environment n°	Description of the environment in a few words : what do I like ? What am I interested in?What am I attracted to in thisprofessional environment ?

Photo / environment n°	What other members of the group like / think
