

INITIAL EVALUATION REPORT. CEUTA, SPAIN.

Most of students' answers:

According to the question number 1: Do you know the eTwinning platform?

Most of our student answer that they know it because last school year they collaborated on an eTwinning project and they learnt to use the TwinSpace. That is great.

Question number 2, most of students doesn't know what the authorship is so we will have to work on it.

Question number 3: Most of students think that they like science a lot.

Question number 4: Students know who Marie Curie is because when we presented the project to students, we explained the objectives, who our partners were as well as the meaning of the title "Women with science and conscience: Marie Curie, looking for eTwinning" that is why they know who she is which is great.

Question number 5. They have answered that they only know the name of one woman scientist because they only have heard the name of "Marie Curie".
