

## PODLASIE...

- from extremely clean, rich in fauna and flora of lakes and backwaters

is known for ...

- from architecture

The unique architecture in Podlasie is mainly wood and colors. Particularly noteworthy is church architecture, but also rural architecture

- from the Białowieża Forest

It is impossible not to mention our greatest pride, the oldest forest in this part of the world, which has been suffering so much lately. The Białowieża Forest has only decreased by 45% in the last 300 years

- **nature** - it is one of the greenest regions in Poland. Podlasie nature, however, is not only forests, but above all, animals that can be found on every corner. Roe deer, deer, elks, wolves, bison - these are native inhabitants of these lands

- from the orthodox church

- with disco polo

This year, this Polish genre of music celebrates its 25th anniversary. It is Podlasie that is the cradle of this species and hence the greatest of its stars

And now a joke 🖨

- from the kitchen

Kartacze, potato cake, sausage, bliny, cooler, sękacz - do you get hungry? Only here you can try all those goodies

Where are we?

In Podlasie.

One week later.
