What do we know about partner countries?

Poland (Eva)

Although I have lived near Poland all my life, I have never visited the country.

Poland is of incredible beauty which offers a variety of beaches, forests, salt mines, wildlife and breathtaking Tatra mountains, as well as many other beautiful cities.

Krakow is one of the oldest cities in Poland. Krakow was already inhabited back in the 7th century. Because the city escaped most of the WWII destruction that fell on other Polish cities, Krakow's Old Town center still retains its stunning medieval architecture. The Wavel Castle and the historic district of Kazimierz — also known as the Old Jewish Quarter — in the area are both designated as UNESCO World Heritage Sites.

Warsaw is the capital of Poland with a beautiful Old Town.

One of the most beautiful castles in Europe is in Poland, near Gdansk. This castle is called the largest Gothic castle in the world. The red-brick Malbork Castle was erected in the 13th century and was the capital of the Crusaders until the militant spreaders of Christianity were crushed by the joint Lithuanian-Polish and foreign armies at the Battle of Grunwald.

The old salt mine in Wieliczka, near Kraków, has an interesting exposition about the daily life of salt miners and the underground world. This is a 2.5 km long excursion route leading through tunnels at a depth of 64-135 m underground.

Gdansk is a beautiful medieval city, the Old Town is rich in narrow streets and 12th-18th centuries. buildings. Gdansk is one of the stations of the European brick Gothic road, which also includes Vilnius. The resort of Sopot is located near the city.

It is a place sadly reminiscent of one of the worst stages in world history - the Nazi-founded concentration camps during World War II. The museum of memory, located in the former death camp near the quiet town of Auschwitz, is deeply shocking and makes you think about human values.

Poland's highest mountain, Rysy, is located in the Polish Tatras. At 2,500 meters, it's the highest Tatra peak. In addition, the park is home to over 600 caves, with the limestone cave system. The Tatras have waterfalls, streams, and mountain lakes.

Since Poland's population is overwhelmingly Roman Catholic, that means that many Polish holidays—from Easter to All Saints' Day and Christmas—follow Catholic traditions. Poland is full of various traditions/ holidays that you wouldn't find across Europe's cities, for example; Marzanna drowning, All Saints' Day (Wszystkich Świętych), Christmas Eve, Palm Sunday (Niedziela Palmowa).

Poland offers a wide range of original food - Polish dumplings (pierogi), cabbage rolls (Gołąbki) and, many more other food choices.

Poland's folk costumes (stroje ludowe) are colorfully decorated and represent different regions of Poland.

I want to visit Poland for these reasons!

Eva

Romania (Ameja)

I would like to travel to Romania because it has breathtaking nature and there's some seriously stunning architecture and the buildings are full of history.

Bucharest is the capital and largest city. Some old architecture still remains—there are several seventeenth- and eighteenth-century churches and a university dating.

Borsch, cabbage soup with bran, or ciorba, a soup of lamb, mushrooms, and other meats and vegetables, is often served as a first course. Main dishes are usually meat-based, such as tocana, a pork stew flavored with garlic and onions.

Traditional clothes: a white shirt or blouse made from linen or wool is the basic garment for both men and women in Romania. Traditionally, men wear white pants, the white shirt, a hat, belt and overcoat. Women also wear a blouse similar to the men's shirts but longer.

Bulgaria (Ema)

Bulgaria is the oldest country in Europe that hasn't changed its name since it was first established.

Sofia, the capital of Bulgaria, was founded 7000 years ago. This makes it the second oldest city in Europe.

The gold treasure discovered in the Varna Necropolis is the oldest one in the world.

The highest Bulgarian mountain, Rila Mountain, is also the highest on the Balkans. Its tallest peak – Musala (2,925 m/9,596 ft.) – is higher than Mount Olympus by seven metres.

The Bulgarian flag consists of three bands of equal size, white, green, and red, positioned horizontally from top to bottom. The white is a symbol of peace, the green represents the wonderful nature, and the red is the blood soaked into our lands.

Before falling under Ottoman ruling, Bulgaria had double its current area. Three seas washed its borders – the Aegean Sea, the Adriatic Sea, and the Black Sea.

The famous Bulgarian rose oil is used for making some of the world's most popular and expensive perfumes. One gram rose oil is produced out of 1000 rose blossoms.

The first computer in the world was created by John Vincent Atanasoff and Clifford Berry. John Vincent Atanasoff, an American whose father was Bulgarian, worked with colleague Clifford Berry to create an electronic digital computer called the Atanasoff-Berry Computer. It was quite far from contemporary computer technology, but it was a big step forward. The John Atanasov prize is awarded every year in Bulgaria. The 3546 Atanasoff asteroid found at the Bulgarian astronomic observatory of Rozen, was named after him

Croatia (Neda)

Amazing beauty country called Croatia is located on the Balkan Peninsula. It is a small country whose shores are washed by the Adriatic Sea. Croatia is full of culture and historical heritage. The changing history of the country has resulted a rich and various heritage that surprise in its abundance. From luxury resorts to national parks untouched by civilization.

I think one of the main reasons why I would like to visit Croatia is nature. This region is endowed with infinitely beautiful nature. It is one of the most naturally diverse countries. Plitvice Lakes National Park is a UNESCO World Heritage Site. These are clear lakes connected by different size waterfalls, surrounded by forests. Another feature of this country is the islands. There are more than 1,000 of them in Croatia. Some of Croatian beaches are considered as the most beautiful locations in the world. Also, Croatia is one of the ecologically best-preserved parts of Europe, since the 10% of the country is protected.

Another thing that I like about Croatia are the amazing cities of ancient architecture. The capital Zagreb is one of the oldest cities in Central Europe. It is an active and colorful city, regardless the history of the old town, which has existed for almost a thousand years.

Dubrovnik is a middle ages town on the Adriatic Sea coast. It is famous for its extremely colorful past and the uniqueness of the city preserved for centuries. Dubrovnik's Old Town is also a UNESCO World Heritage Site. Dubrovnik has become very famous in recent years for the popular TV series "Game of Thrones". Part of it was filmed among the historic walls of Dubrovnik.

Traditional Croatian food is various. It has been really impacted by the traditions of neighborhood countries and different nations. From north to south and from east to west, each region of Croatia has its own special culinary.

Also, one of the most charming things about this country is people. I would like to get to know Croatian people and their culture more closely. Croatia has over 4 million inhabitants. The Croatian nation is cheerful, open, friendly, with a lot of traditions. The official language is Croatian. About 5 million speakers speak this language. There are also 3 dialects.

Croatia is one of the most beautiful and memorable countries, leaving a huge impression.

Read books BINGO

- * Students choose the book they like best.
- * They prepare a short presentation of the book - a story: introduces the author, indicates the title of the book, creates an intriguing short story about the book's events, characters.

IMPORTANT: using this book presentation game, it is essential to present the book consistently, mentioning in the story what is written in the game leaflets so that everyone has an equal chance of winning.

- * Students create several variants of BINGO cards in the book they have read - on the cards they write the keywords of the book or hints of the plot line, short quotations.

* Bingo card creation program: <https://myfreebingocards.com/>

Presentation of the books

- * The cards are handed out to classmates before they start talking about the book.

* Classmates should listen carefully to the presentation of the book and, upon hearing the keyword or plot line hint, strike this out on their BINGO card.

* The student who does this first shouts Bingo! and wins the game.

* After that, classmates can ask questions about the book.
