

# BULGARIA AND BULGARIAN EDUCATIONAL SYSTEM

# BULGARIAN EDUCATIONAL SYSTEM

In the Republic of Bulgaria, school education up to the age of 16 is obligatory.

This is regulated by the Law on National Education.

The training process is organized in the following way:

1. Basic (Initial stage of primary education)-from 7 to 11 years old. This stage is from I to IV grade.

2. Primary (lower secondary level of primary education). Here the age is from 11 to 15 years.

This stage is from V to VII grade in primary school.

3. Secondary- from 15 to 18 years. The stage is from IX to XII grade.

4. High school education.

## The aims of Bulgarian educational system :

- to build a free, moral and initiative personality
- to meet individual interests and needs
- to acquire a broad common culture.
- to master basic scientific concepts and principles for integrating past experience with new knowledge from different fields of science and practice.
- to select of options for training and professional qualification, according to the possibilities of the students and the chosen by them school.
- to develop the material, cultural and environmental environment of kindergartens, schools and service units.
- to assimilate common human and national values, virtues and culture and to develop individuality and to stimulate creative talents.

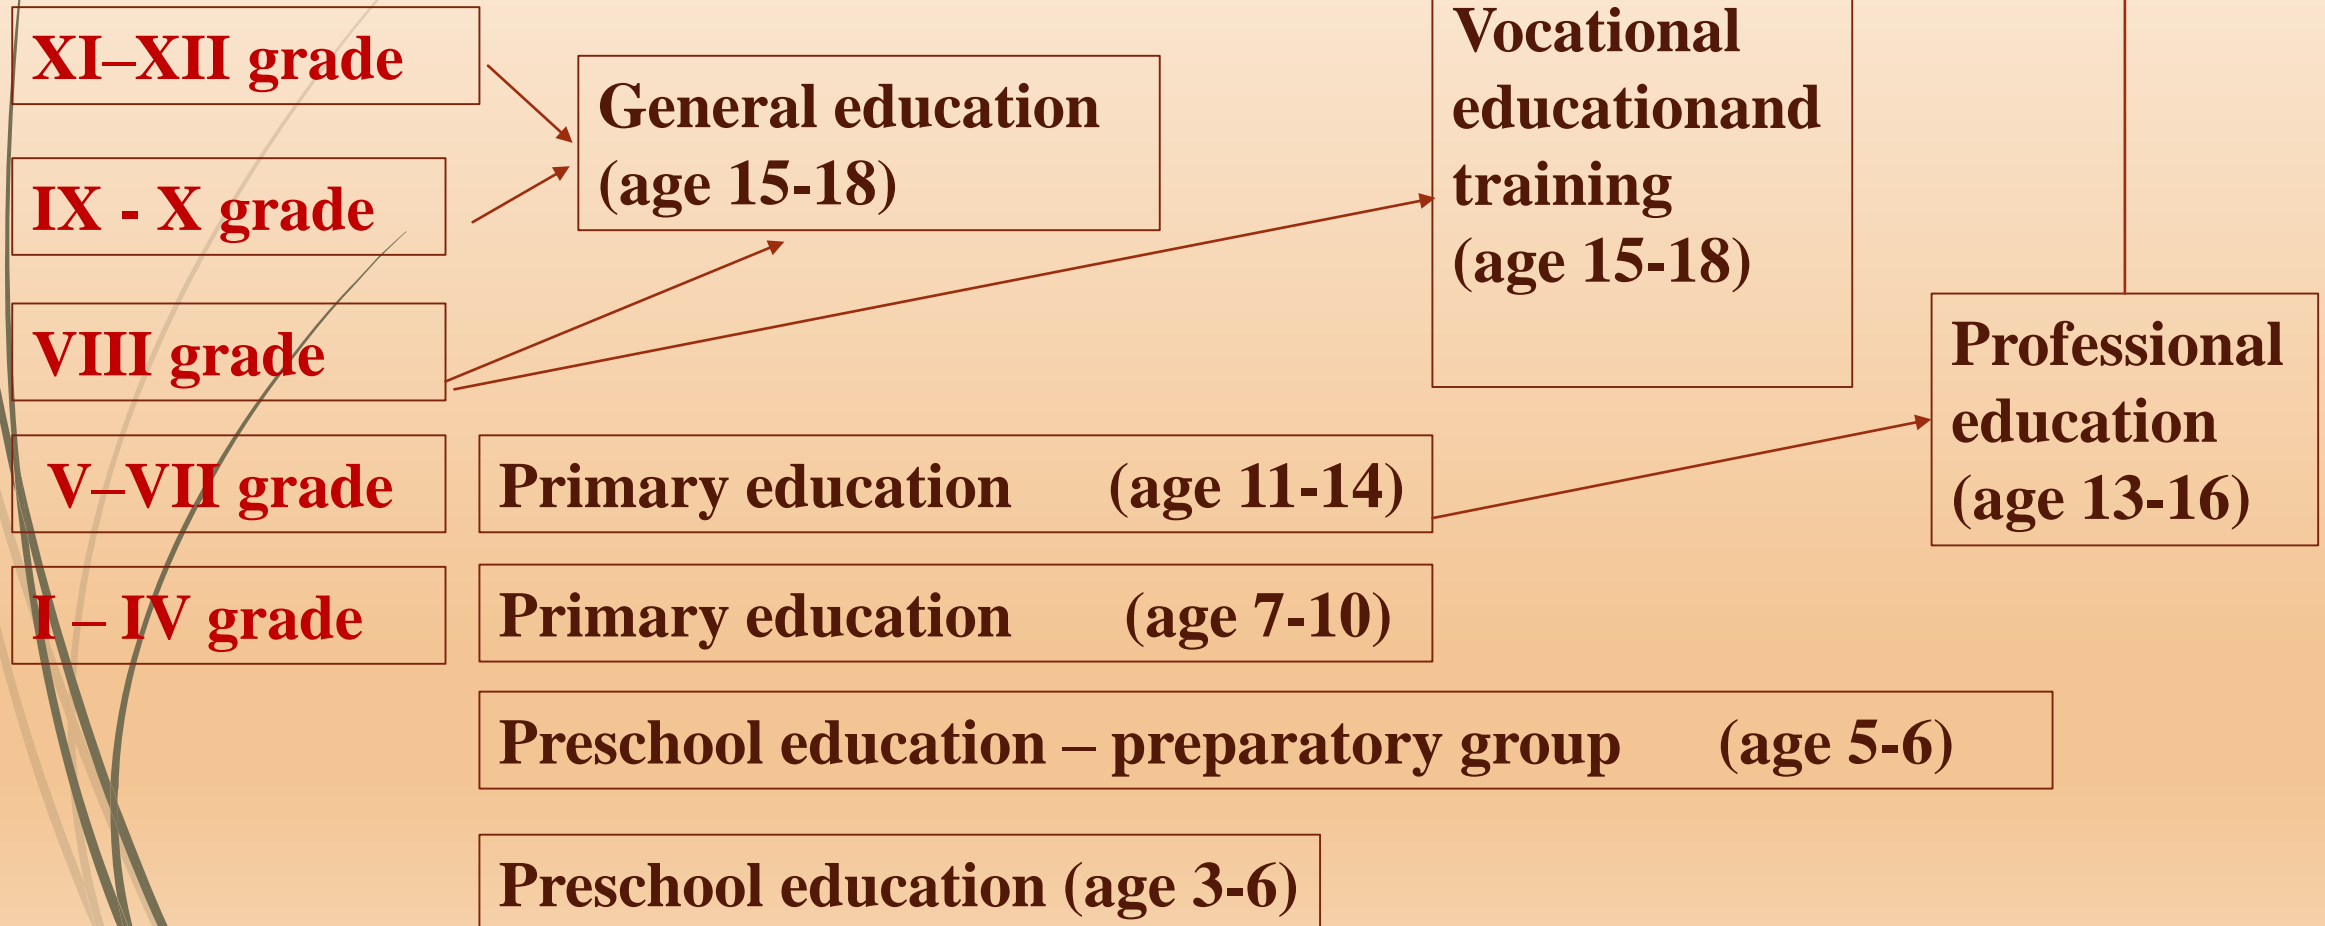

School education in Bulgaria is obligatory until the age of 16. It is secular and is free of charge. The funds for maintenance and development of the education are determined with the state budget adopted by the National Assembly and with the budgets of the municipalities.

The official language is Bulgarian and those for which he is not a mother language have the right to study their own, under state protection and control.

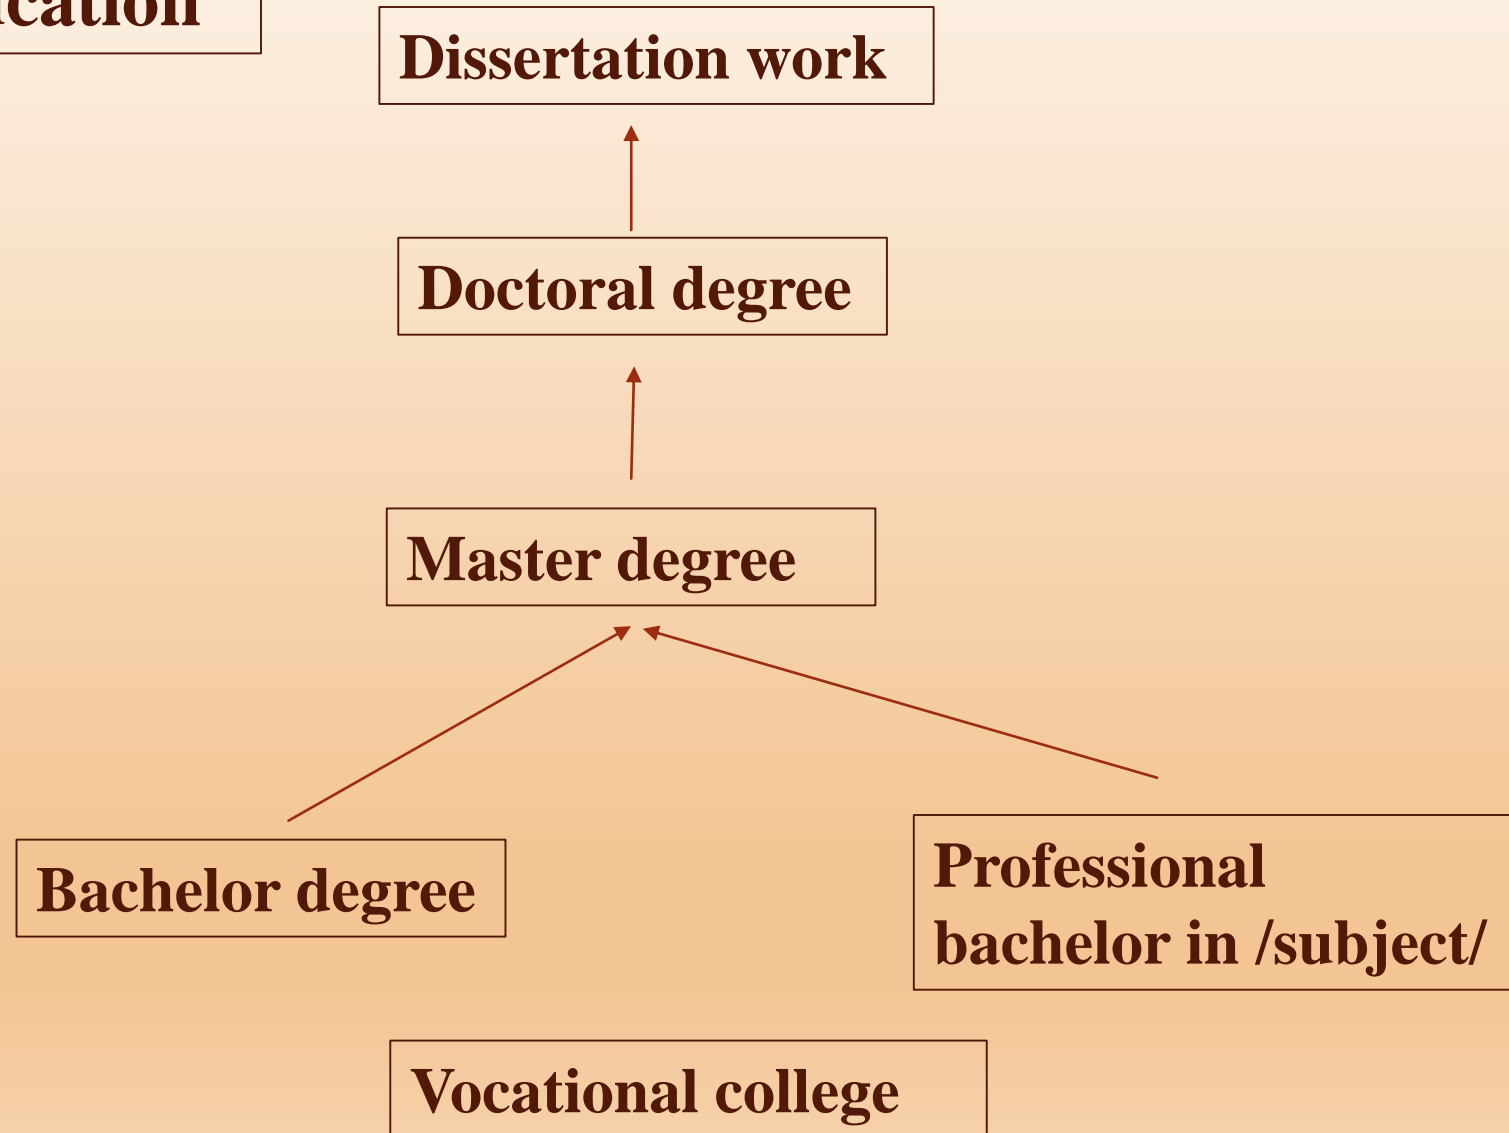

The school year consists of two periods, starting on September 15 and ending in May or June, depending on the grade.

The education system consists of the following levels: preschool, primary, secondary and higher education. Visiting a kindergarten is optional. Kindergartens and schools are state, municipal and private.

# Primary and Secondary education

# Higher education

# HIGHER EDUCATION

Higher education is not obligatory, it is carried out in accredited universities - universities, colleges, specialized higher education institutions and scientific organizations, organized in the following way:

Professional Bachelor - 3 years- college.

Bachelor degree - 4 years- to studied at university, college, specialized higher education institutions.

Master degree - Learn 5 years after secondary education, 2 years after a bachelor's degree or 1 year after bachelor.

Doctoral degree - 3 years after Master.

## МОЕТО УЧИЛИЩЕ

Крив - 15      Февруари, 2023

ПРОЕКТ ФИНАНСИРАН ОТ ЕВРОПЕЙСКИТЕ СОЦИАЛНИ И РЕГИОНАЛНИ ФОНДОВЕ

Вестникът се издава от клуб „Моя журналистик“  
**1200 години от рождението на Свети Методий, създателят, заедно с брат си Кирил, на българската писменост**

**Свети Методий (815 - 885)** е византийски политически и културен деятел, по-голям брат на Константин Кирил Филозоф. Двоимата братя са родени в Салона, в семейството на византийски морски офицер и управител на Солунска област Лаво, известен и българската историография като Лав, и жена му Мария. Бащата умира рано, но способностите на децата се забелязват от близкия на семейството велик князев Теодисий, главен министър на императорите Михаил II и Теофан и регент на малкия си Михаил III. Петимата братя и сестри след изпитания и изпервания, Теодисий изпраща своите домочадци Кирил и Методий при себе си в Константинопол, където учат философия и претставната Македонска школа. На Методий е възложено поста управител на административна област до Солун. Непочиващо за всички в 851 г. той се отказва от висшата пост и става монах в манастири „Свети Поликарп“ в Мала Азия, като се отдава на книжовни занимания.

Смята се, че именно в този манастир е съставена главноначалствена българска азбука през 855г. Там Методий прави заедно с брат си Константин. По това време са преводачи и най-важните християнски богослужебни книги.

**Великоморавска мисия**

През 863 г., по поръчение на Императори след искане от страна на великоморавския княз Ростислав двамата братя, начело на свои ученици, пристигат в столицата на княжество Велетрад, където развиват активна дейност - основават духовно училище, възвездат църковните служби на славянски език, продължават провади на богослужебни текстове на славянски и преповадват. Два Великоморавия двамата братя прекарват три години, като обучават голем брой ученици.

**Римски мисия**

През декември 867 г. римският папа Адриан II посрещна тържествено двамата братя и техните ученици. Те посетят Рим моштите на свети Климент I, един от най-видните светци, изверени от братята в гр.Херсон, по време на тази мисия. В римските базилика се провеждат тържествени служби на славянски език. В 869 г. Методий е разположен от папа Адриан II за архиепископ със седалище във Велетрад - столицата на Великоморавия и остава на тази длъжност до смъртта си.

# **Activities against aggression in PS „Elisaveta Bagriana”**

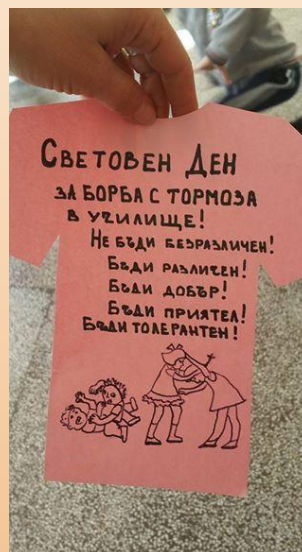

1. We take a part in many sporting events that our students have won awards seats - regional relay in athletics, basketball, handball
2. We arrange and conduct educational games to build values, to love the motherland and be tolerant - creation of club "Young Revival"
3. We arrange and conduct a dance school at leisure- Bulgarian folk dance, modern dance
4. We arrange and conduct competitions for talants students- songs, dances, and competitions in painting.
5. We arrange and conduct activities about various subject/topics- "Human Trafficking", "What about the difference?" "Me and the others", "Relationships at home and at school“, open classes, workshops.
6. We arrange and conduct competitions for essays against aggression in school and in a society.

These are just some of our pleasant and useful methods against aggression and bullying at school and in society as a whole. The school have serious mechanisms are dealing with these problems in combination with pleasant activities for students and they are happy to be part of our school life.

# „Day of the pink t-shirt”- An international day against aggression and bullying at school.

Innovative information campaigns-  
“School without fear”

# 16 November- International Tolerance day

Tolerance means respect, acceptance and understanding of the rich diversity of cultures in our world, of all forms of self-expression and the means of manifestation of human individuality.

## Charitable shares

- "Together in the name of good"
- "Together against aggression in school"
- "With much love" ...
- "Transforming violence in friendship"
- "Hug Me"
- "A Christmas tale about good"

# „Love the other”

Children supported by teachers made a heart-shaped flash in the yard of the school.

At the initiative of the Students Council in a sign of tolerance to all peoples was made the "Ark of Love" decorated with hearts, written with the message "I love you" in a hundred languages and wonderful verses of famous Bulgarian authors.
