

THINGS FROM BERLÍN

Berlín is characterized by having one-tenth of the population originating in other countries, with the Turks being the most representative group. This list is followed by Italians, Poles and Russians.

WHY BERLÍN?

It is the German paradise that you have to visit at least once in your life not only because of its historical importance

WHERE TO GO?

You can visit The Wallof Berlín, The Cathedral, The door of Brandenburg

WHAT TO DO?

You can cross the famous Checkpoint Charlie or you can hear people sing in the karaoke of Mauer Park

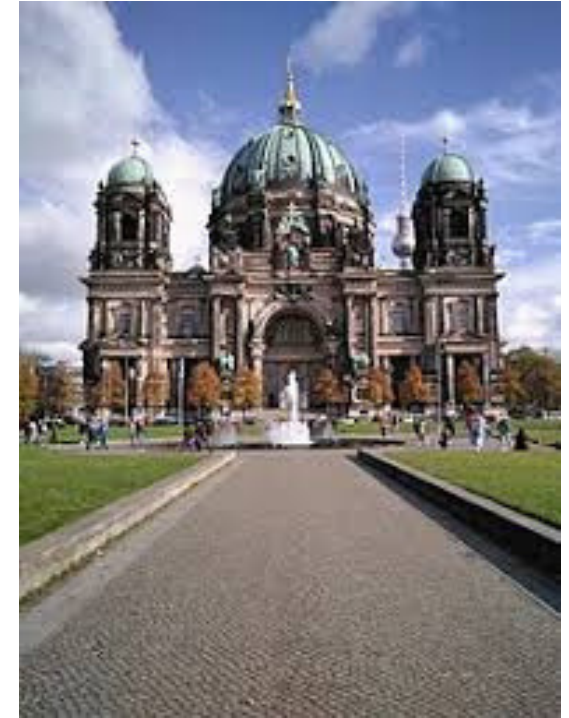

Berlín has got something for everyone. It's a city with a very special atmosphere even though in the past there was a terrible nazi torture, you can see it in some sections of city walls.

If I were you, I would visit this city, I'm sure that you will love it.
