Robbery at the museum

WRITTEN BY JESÚS ORTIZ SERRANO

A gang of four thieves entered to rob the museum of Cabra and stayed inside for 4 hours.

The thieves entered the museum and said ``this is a robbery`` and the people did not believe it, until they saw their guns and all their sacks ready to steal works of art and paintings.

The police have already questioned all the witnesses and there are more than ten police cars chasing the thieves involved in the rob of the museum. However, the thieves have long since left and it will be very difficult to catch them.
