

Vin de Normandie

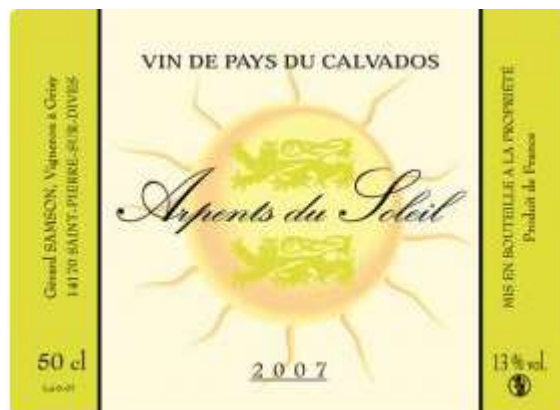

At the heart of Normandy, near Saint Peter on Dives, are situated the ACRES OF the SUN .A dry and hot microclimate, a facing south hill and an exceptional ground (anthropological Rendzine on upper Bathonien) deserving of the most vintage explain their success.

Of medieval time (period) at the end of the XVIIIth century, already a vineyard prospered there. The former (old), with their innate sense (direction) of the nature, called this site ideally displayed (exposed) "The sun".

The search (research) for the optimal quality factors (mailmen) presided over their revival, in 1995.

Dress intense ruby, nose and mouth, where get involved red berries and smoked marks

Vin blanc sec issu de la connivence entre les cépages "chardonnay" "sauvignon"
