## 17. What are you planning to do in your class/school after this meeting in Melilla?

23 respuestas

Create badges to support equality within the school

Tell the students about our experience

Probably doing a presentation to the school about the trip. Talking with my friends and general people about the experience!

Promote that multiple cultures can live side by side if everyone is respectful and open minded

We had a presentation already in english.

Give feedback on the meeting and use the new ideas we have developed to tackle problems.

There's nothing really significant that I can do by myself but if we all keep promoting equality we can achieve it.

We are having a powerpoint presentation and I'm going to recommend to everyone to go to the next meeting.

Have a presentation about this week in Melilla and prepare the other students who are leaving for Portugal.

I'll try to make sure that everyone in my circle feels good with themselves

Try to do more against inequality

Preparing myself to receive new partners in the future

Im going to Talk to my teachers to do more projects like this one

Be more efficient and practice my english

Try to keep in contact with the erasmus students

I would like to travel to some of these countries to see my new friends again

Maybe i want to say something about what we have to do to increase the diversity on this city.

Share what i learn

Talk about my experience with others

I am going to talk about my experience so that other people can know about this situation in melilla

Some of the people who came to Melilla are now saving money to come back in the futurw

A presentation of Melilla by a film.

I will definately tell many great stories about this trip!

## 19. What didn't you like about this meeting?

Some of the lectures were quite long to sit through

We should have more than one week with themes

The time is not enough probably a few more days.

It was too short.... there was so much more I could've known if the trip was a little bit longer

-

N/A

The organization of the activities was a bit sloppy

Some lecturers were a little bit boring but everything also was good

It was too short. We should have more time to learn to know the other student from the other countries.

I've always hated goodbyes, and this one was incredible hard for me

The only thing that I did not like was the farewell

Not being able to participate in most of the activities

I liked everything so I can't say anything in this question

I liked everything

That spanish students didn't do the same activities as the other students

It was very short, I wished they stayed longer

Maybe, the last day, It was my birthday and i felt a little bit strange.

How long was

The bad weather

It was too short ;)

I liked almost all the things, maybe except the first day that was a little uncomfortable

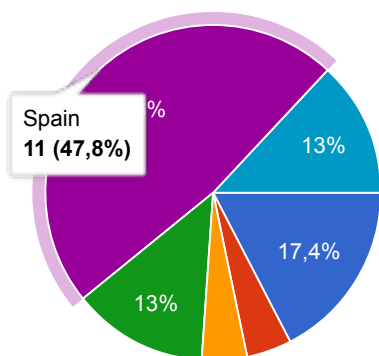

Nothing.

I liked all of the things!
