

Our Daily Routine

Work done by:
Catarina Ferrão
Leandro Ribeiro

Busy Days

We have a busy daily routine: our schedule is relatively tiring and heavy, due to the work we have. Sometimes we do not have time for anything else but school. We usually have 7 hours of lessons.

After school we also have practice and training at least 4 days a week.

Free time

In our free time, on Saturday and Sunday, we have our activities.

On Saturdays we always have a match and on Sundays we hang out with friends.

We love eating out with friends and family. Our favourite dish is roast chicken with pasta or lasagna.

Different areas

We learn different subjects from different areas.

Most students find Physical Education the best subject because it is practical and helps us relax from the theoretical subjects.

At home

At home we have some chores like making our beds, laying and clearing the table, baby sitting younger siblings and tidying up our bedrooms.
