2.1. Why? Social media has the widest reach among students, teachers, parents and local community. Also, features in local media (newspapers) are an important means of making our project known.																			
3. Do you want to add something else about your dissemination that is not mentioned yet? I believe, given the COVID-19 conditions (studying ONLINE for 6 months), the online dissemination was easier and more effective for us to do this year.
