2.1. Why? Publishing our project actions in the digital media (school and project websites, facebook page), as well as the facebook page of the Municipality of Korydallos and the Greek School Network website, has allowed our project to become known not only at school level, but also in a local and national level.

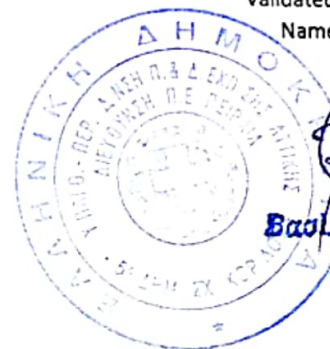

3. Do you want to add something else about your dissemination that is not mention yet? The prohibition of face to face meetings due to covid19, as well as the distant education model that was used for half the school year, did not leave any opportunities for organizing further events in the school area.
