

JANUARY

In January, our Minister of National Education, Ziya Selçuk visited our school. We were very glad because of his kind visit. The visit was at the end of the first education year.

First, he visited a few classes and attended the lessons and then he visited the teachers' room and had a talk with the teachers. He mentioned about his future plans about education and asked teachers opinions about them.

Our Minister Ziya Selçuk met with the students and had some more time with them. The students asked questions to him and took photos with him.
