

INFOPACK

Unpick Your History, Weave Your Future.

We have chosen the history of the textile industry as a context for this project because the home of each participant shares a common heritage that is still influencing our societies. We believe that we should understand our history to build a better future.

Promoting
cooperation
between European
countries to
improve dialogue
between cultures.

Co-funded by the
Erasmus+ Programme
of the European Union

Location

Our school, IES David Buján, is situated in **Cambre**, a municipality in the Province of A Coruña, in the autonomous community of Galicia in northwestern Spain. It lies 12 km from the capital city of A Coruña and ten minutes away from the city's airport, Alvedro.

According to the 2010 census, the municipality of Cambre has 23,621 inhabitants spread throughout its 12 parishes, which occupy 41 square kilometres.

The town is situated on the Way of St. James (Camino de Santiago), though on the English Way (Camino inglés), used mainly by pilgrims coming from England and Ireland via ship to A Coruña or Ferrol, and from there on foot to Santiago de Compostela.

The town of Cambre has many places of interest. Among them are:

The Church of Our Lady Mary of Cambre (Spanish: *Iglesia de Santa María de Cambre*, Galician: *Igrexa de Santa María de Cambre*), built around the 12th century; an archaeological museum with a permanent exhibition of the remains of Roman baths and latrine; and the house of Galician writer Wenceslao Fernández Flórez (1885–1964).

You can get more information about our school IES DAVID BUJÁN in this [prezi](#):

Our School: IES David Buján

At the IES DAVID BUJÁN, we teach the following age groups and special programs:

- Secondary Education (pupils aged from 12 to 15)
- Sixth Form (pupils aged 16 and 17)

Ours is a school with a special focus on:

1. Promoting language learning and language diversity. (We currently teach Spanish, Galician (our regional language), French and English) Both Maths and Science are also taught in the English language to 12 and 13-year-old pupils (bilingual sections)
2. Helping students to acquire basic abilities in life. Our centre is also noted for our "Health Workshop Programme", which started in 1991 and covers extra-curricular activities, the emphasis being on Health Education, as this is one of our school's best-known features. This year we have been taking part in a school health program, "Xplore Health", designed to create and promote a website interlinking other schools (as well as scientific learning centre and museums) with the aim of enhancing the spread of knowledge in health research.

Bearing these aims in mind, our school's role in the project will

Exchange good practices implemented in each of the centers through virtual communication channels, networks, meetings and mobilities that improve language and digital skills

be focused on the way teenagers, from different countries, deal the current science in their daily life, such as technology, new materials or new biology challenges, among others.

Participants

This is the contact information for each country

Country	School	Contact teacher
Spain	IES David Buján	José Viñas
Spain	IES David Buján	Lola Martínez
Italy	IIS GALILEO GALILEI	Cristina Pavisic
Italy	IIS GALILEO GALILEI	Cristina Moroncini
Macedonia	SOU Orde Chopela	Karolina Damanjoska

From/to airport

The best way to get to our area is flying to the nearest airport (LCG Airport) that is 14 km from the center of A Coruña (15 minutes by car).

The airport pick-up is scheduled as follows: At the appointed time we will be there supervising teachers and host families who will care for the students and take them to their homes in their cars.

Country	Arrival A Coruña	Departure
Italy	27th Nov 15:35 Sunday Airport.	3rd December 15:55 Saturday, Airport
Macedonia	28th Nov 8:15 Monday Railway Station	2nd December 15:00 Friday, Railway Station
Czech Republic	27th Nov 20:00 Sunday Airport.	2nd December 15:00 Friday, Airport

Accommodation: Host families
