Friday's goodbye dinner [1.- Please, indicate your overall satisfaction for the following activities related to the project:]

Very Satisfied	5	50%
Satisfied	2	20%
Neutral	3	30%
Dissatisfied	0	0%
Very Dissatisfied	0	0%

2.- Please mention any positive comments related to the activities

Everyone was very kind to us. Also the host families, our students were very satisfied. Also thank you for the accommodation and all the worries about our well-being in Greece. City tour was great experience.

Everybody was very friendly and gave us a very warm welcome. The activities and the agenda were very well planned and organized according to the project's goals. You have to congratulate your students and teachers for that wonderful ceremony and hard work. I found the activities that your team prepared for the students very interesting and a fantastic way of both getting to know each others as well as the city. The street market was amazing and full of fantastic ideas. So well planned. I loved it. The artifacts and woks that your students and teachers did and that were displayed at school's hall were also extraordinary! I loved the way our teams got over the difficulties because it will develop a stronger sense of belonging, which is great for our collaborative work.

Good plan set for activities.

The Greek team made a lot of effort to welcome us and was very active during the week in accompanying us. A lot of planning went into activities to make them diverse. Activities ran smoothly.

The activities were very varied and interesting for both students and teachers. I really appreciate all the work you have done. Thank you very much.

3.- What would you recommend to help us improve our performance in future events?

During the fix in arts activity and e.g. Thermi, teachers could have been involved as well, otherwise we just "waited", although Thermi was extremely nice place.

The co-training activities were very well carried out by the teachers, although it wasn't exactly what I expected. For instance, I thought we were going to learn something about web design rather than dealing with google tools, but even in this case I could learn some things I didn't know, so I found it useful and the teachers did a great job. Regarding the activities aimed at the students we need to make clear for the following mobilities if the teachers can also take part in them. For instance, in the Fix in Art Activity, which I think was extraordinary, I didn't know that I could participate as a teacher as well.

I would suggest to add more interesting visits to the surroundings of cultural and Historical

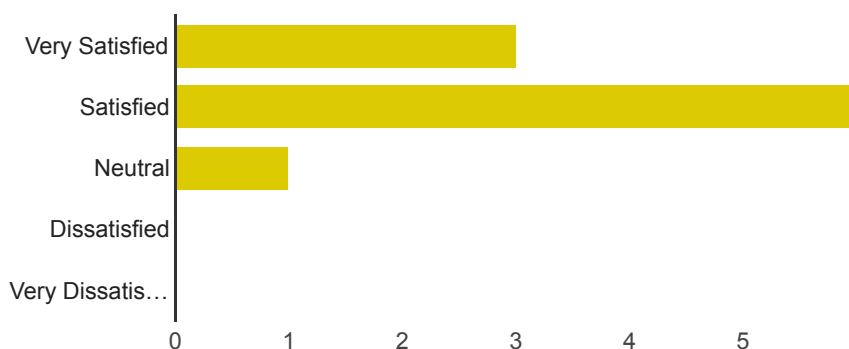

relevance and not limit the variety of food in the restaurants proposed to the hosted partners,leaving them the possibility of choosing What they prefer to eat ..Costs for the students'activities should be known in advance,avoiding to present bills that may sound excessive .

Better time management would be fine, sometimes breaks were too long and there was a feeling of "wasting time". Students were sometimes like "not involved" in activities.

I found the nights eating out very late to wake up at 6 every morning. But that is a cultural difference, not much to do about is really.

2	1	10%
3	1	10%
4	5	50%
Excellent: 5	3	30%

11.- What are the major strengths of this meeting?

That it supported project ideas on all levels included in it - friendliness, recycling, cooperation...

The hard work, the willingness of the Greek team to make us feel at home. The agenda and activities planned, the exhibition displayed at the school hall, the music at Asilo Greek Tavern (great atmosphere and company). The friendliness and how warm the whole Greek team (including the families) was, the street market. Sometimes it's also difficult to prevent misunderstanding caused by cultural differences but the Greek team did everything they could to compensate, which is great. The whole week was unforgettable.

The variety and large number of recycled objects made by the Greek team.

Lovely country, good weather, enjoyable city and dearly acceptance by Greeks.

- each participating country could contribute - very successful open-air market - good atmosphere - carefully prepared activities - the efforts of the Greek team as a whole and also that of individuals - students had a great time - the host families did a wonderful job - all partners are equally active - the Treasure Hunt was amazing

Communication among teams, good atmosphere most of the time, students' experiences and interesting activities.

the Greek team was amazing

12.- What are the weaknesses of this meeting?

Sometimes more activities could have been scheduled especially for the teachers (fix in arts e.g.).

Perhaps some things should have been clearer: the expenses must be clarified in advance for the following meetings but that was also fixed and agreed last Friday in our last meeting, so nothing else to be mentioned.

none

Some blank spaces between activities.

the activities time

Fix art laboratory
