

Evaluation eTwinning Fog Hnos San Isidoro y Sta Florentina (Cartagena, Spain)

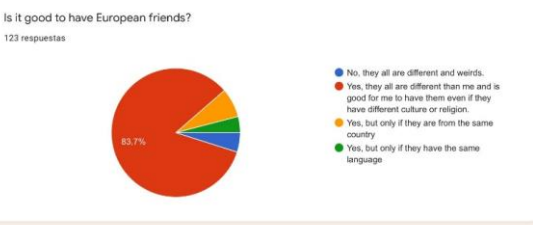

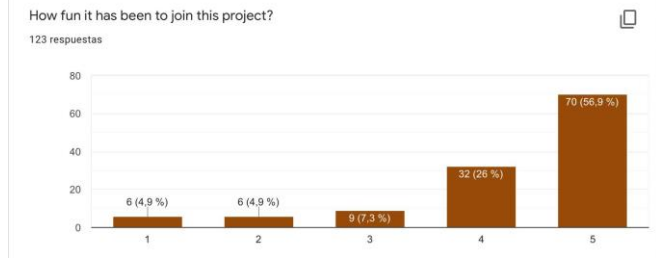

Most of the students and **families** enjoyed the Project. Families said they would like to be involved more for the next course, but they said they have loved the Project and the tasks we have been doing since they have realized their kids have been using real English with other students. They liked the radio programme (since they listened to it at home through Google Classroom) and the newspaper. Some improvement proposals for the families: They would like to be more involved in the Project and they would like to participate directly on it, but it was difficult this year because of Coronavirus.

Teachers from my school said it has been difficult to coordinate and to do all the tasks. Their students have enjoyed it a lot, but it has been difficult to integrate it with their teaching programme. They would like to know the Project in advance for the next year and maybe they would like to start a different Project each level. I told them it is better for such a big school like us (more than 60 teachers) to have more than one eTwinning Project at the same time instead of joining all to the same Project.

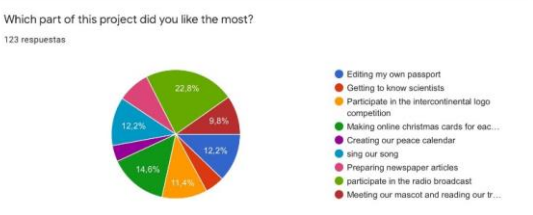

Our **students** consider they have learnt a lot about “respecting to each other”, “tolerance”, inclusión... although we are concious these topics are so important we have to keep working on it.

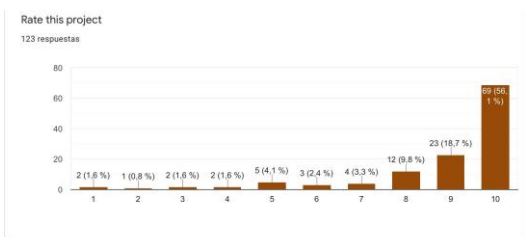

They value very positively the collaborative work with other schools. They prefer working in groups than working alone and most of the students said this Project meant lot of fun for them.

Most of them believe it is good to have European Friends. The parts of the Project they liked the most were: Participating in the radio broadcast, making Christmas cards, editing their own Passport, singing the collaborative song and participating in the intercontinental logo competition.

Add any comment, sugerence or ideas about this project.

I would like that the next project will be about the friendships!!

I love my projects

I like proyets

I like to participate with other schools

I LOVE It :-)

I like the project

The next year I want to work about the peace.

Ilike Twinning

I would like to do another project on animals or about the friendship

Most of them rated this Project with 10 out 10 and some comments or ideas for next projects were: Talking about the friendship, keep participating with other schools, more videoconferences, talking about peace, talking about animals, Project about football and sports, projects about the importance of the environment, Projects with other schools.
