## A1 – WE ARE ONE

A.1.2 – The SDGs

The second activity will consist of knowing what is the 'SDGs of the United Nations' and we will focus on goal 16 (our working SDG). To do this, we will read a short text and discuss it in class about the meaning.

The #SDGs of United Nations

The 2030 Agenda for Sustainable Development, adopted by all United Nations Member States in 2015, provides a shared blueprint for peace and prosperity for people and the planet, now and into the future. At its heart are the 17 Sustainable Development Goals (SDGs), which are an urgent call for action by all countries - developed and developing - in a global partnership. They recognize that ending poverty and other deprivations must go hand-in-hand with strategies that improve health and education, reduce inequality, and spur economic growth – all while tackling climate change and working to preserve our oceans and forests.

○ Goal 16 #SDGs - *Sustainable Development*

Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels

The threats of international homicide, violence against children, human trafficking and sexual violence are important to address to promote peaceful and inclusive societies for sustainable development. They pave the way for the provision of access to justice for all and for building effective, accountable institutions at all levels.

While homicide and trafficking cases have seen significant progress over the past decade, there are still thousands of people at greater risk of intentional murder within Latin America, Sub-Saharan Africa and around Asia. Children's rights violations through aggression and sexual violence continue to plague many countries around the world, especially as under-reporting and lack of data aggravate the problem.

To tackle these challenges and build a more peaceful, inclusive societies, there needs to be more efficient and transparent regulations put in place and comprehensive, realistic government budgets. One of the first steps towards protecting individual rights is the implementation of worldwide birth registration and the creation of more independent national human rights institutions around the world.

16 PEACE, JUSTICE AND STRONG INSTITUTIONS

PEACE, JUSTICE, AND STRONG INSTITUTIONS:
WHY THEY MATTER

What's the goal here?

Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels.

Why?

Peaceful, just and inclusive societies are necessary to achieve the Sustainable Development Goals (SDGs). People everywhere need to be free of fear from all forms of violence and feel safe as they go about their lives whatever their ethnicity, faith or sexual orientation.

In order to advance the SDGs we need effective and inclusive public institutions that can deliver quality education and healthcare, fair economic policies and inclusive environmental protection.

### What needs to be done to address this?

To achieve peace, justice and inclusion,

Today, **20 million** people are **refugees,** over **41 million** people have been **internally displaced,** and at least **4 million people are stateless**
