CINQUAIN POEM N°6

Sylvain is my first name. I don't like it very much, but I don't really have the choice !

You don't know me very well, so I'm going to introduce myself to you.

Last summer, I ate peanut butter for the first time in my life ; it tastes as good as it smells !

Venice is my favorite city because coloured houses are so charming !

After a long school day, I love having some rest in my comfortable bed and feeling my soft and warm blankets.

In winter, I like watching TV series near the fireplace. I also love watching the flames !

Never did I spend a day without listening to music : this is my favorite hobby.

Stop terrorism

Have you heard the news ? Dead people again, destroyed family.
Don't speak too loud , someone could hear you.
We can't speak about it, we have to remain united to face terrorism altogether.

We are united, we are not afraid of you.
All those murderers who destroy families,
We say no.
They want to turn France into a dictatorship,
We say no.
We have the right to live without being scared all the time,
Stop terrorism.
You lead young people to horrible actions,
We say no.
You can't decide who has to die and who has to stay alive,
We say no.
You use muslim religion to justify your actions,
We say no.

We speak for Madrid.They just wanted to travel or just go to work.
We speak for London.They just wanted to take the public transport.
We speak for Paris.They just wanted to express their opinion with drawings.
We speak for Paris.They just wanted to go to Eagles of Death Metal concert.
We speak for Brussels. They just wanted to take the plane and travel.
We speak for Nice.They just wanted to look at the fireworks.
We speak for Berlin.They just wanted to celebrate Christmas.
We speak for New York. They just wanted to work peacefully.

I'm France.
I'm England.
I'm Germany.
I'm the USA.
I'm Spain.
I'm Belgium.
I'm Tunisia.

We are united.

Dear Mums and female friends!
You are pretty, lovely
On this special day
We would like to say:
