

RACISM

Nelson Mandela:

« We say friends are made by heart, not by skin colour ! »

1:

Racism is everywhere, victims are numerous
It is present everywhere, every time, for everyone !
At work, at school, at public transport, in the street.
It is expressed by racial discrimination
Physical, mental, and verbal violence,
harassment and more.

Martin Luther King:

«I am not really free if I deprive someone else of his freedom »

2:

We are similar,
We must respect differences,
It is not the color of our skin which makes our difference, but the color
of our thoughts
Racism is the reflection of the human stupidity !
We are free to think, but racism is not freedom, it is an offence

Martin Luter King says«I have a dream...To be a negro in America is to
hope against all hope »

3 :

Thousands of people suffer from their differences
They should use it as a strength to the everyday life
Racism is not an opinion, it is an offence
Racism is everywhere, victims are numerous

Barack Obama

« It is enough to open our hearts to know that the racial history of this
country always hangs over us”

True Friendship

With friends, we can laugh

With friends, we can smile

With friends, we are always happy to be together

With friends, we are always happy when we see them

With friends, we can understand each other at a glance

With friends, we do not betray there is not betrayal

With friends, we help each other

With friends, we are happy when our buddy succeeds

With friends, we can trust each other

With friends, we can talk about everything and nothing

With friends, we can have a true friendship

With friends, we have great bond

With friends, it lasts all your life

With friends, we enjoy being together

With friends, we can count on them when we need them

With friends, we can talk hours and hours long

Love On The Net.

*You subscribe
You choose who you want to meet
It's easy to contact one person*

*But pay attention to bad people
Be careful It can be dangerous*

*You know the person
You have common points and you trust him or her
It's great to be loved*

*But pay attention to bad people
Be careful It can be dangerous*

*First, you write a mail
Then, you go out at the restaurant
It's romantic to share moments together*

*But pay attention to bad people
Be careful It can be dangerous*

*You forget where we met
You get married and have children
It's a wonderful story*

*But pay attention to bad people

Protection of the animals

I speak for animals
It's very important
They are powerless
They need our help
The animals are beings
They have feelings like us
And have the right to be loved
We are very important for them
These lovely creatures love you more than anything
Without them, the world will be bad and boring.

Protect the animals, preserve the animals, help the animals, like the animals, we need your support.

I speak for animals
Too many animals are abandoned
Like dogs and cats
When we leave on summer holidays
If we adopt animals
We must look after them everyday
We mustn't be violent with them
Show them some love this winter
Because they are cold.

Protect the animals, preserve the animals, help the animals, like the animals, we need your support.

I speak for animals
We must preserve the planet
Because for years and years
We have caused global warming
Which triggered ice caps
That is the result of some endangered animals
Like polar bears and walruses
We must reduce pollution.
To save them, be ecofriendly.

Protect the animals, preserve the animals, help the animals, like the animals, we need your support.

I speak for animals
Lots of organisations exist
Like RSPCA
They help animals
We must support them
There are nature reserves too
They save a lot of these little creatures
Like koalas, pandas and tigers
To help them, you can, for example, give money.

Protect the animals, preserve the animals, help the animals, like the animals, we need your support.

BULLYING

[1 : Célia]

What is physical bullying ?

Physical bullying is **hitting, kicking, pushing, fighting** with someone.

Slam:Social network

On Facebook, we can like and comment posts but we can meet strange people

On Periscope, we can share a live video with our friends but we can find shocking videos

On Instagram, we can like, share a photo and put a story, we can share good memories but we can see embarrassing photos.

On Snapchat, we can send photos only to our friends and because photos do not last long it is safer

Our trip in Italy

The journey lasted 24 hours.

So what is a bad trip ?

NO ! It was great !

We visited Rome, precisely Vatican, the Coliseum, the Forum and we visited Naples and Pompeii too.

The first hotel was very very bad.

So did you hate it ?

NO ! I loved it !

The second hotel had 4 stars and it was a best Western hotel.

people wanted us to buy souvenirs all the time and everywhere.

So didn't you like it ?

No! I liked it !

We ate pizzas, pastas, bread, bruschetta, tiramisu, and french fries.

On the way back, the teacher was ill and the bus had a problem with a tyre so we stayed in Switzerland for one day.

I don't understand anything. Was it good or bad ?

GOOD AND BAD !

Sports

I have already done lots of sports like swimming, doing athletics and dancing. My friends have already practised gymnastics, tennis and ice-skating

Refrain

Sports are good for health
Sports are life
Sports keep you fit

We must eat healthy food like rice, turkey, tea eggs, salad and smoothie

Refrain

Skiing is a sport of winter
beach volley ball is a sport of summer
but there are ways
to do sport the whole year

We say no

I say no to poverty in the world
A lot of people are poor ,
Each day , they are trying to survive
If nobody helps them , they will die

We say no to poverty in the world

I say no to Racism
Black people are discriminated against
Each day , a lot of people are harassed
If we don't do anything , they won't succeed

We say no to racism

I say no to wars in the world
Destruction , horror , blood and pain
Innocent children are dying every day
If goverments do something ,this would be a
beginning

We say no to wars

*It's not because you smile that you're happy,
Do not be fooled by appearances.
Do not make an opinion at the first impression,
Make your own judgment
It is not because you have good grades that you're a nerd,
Learn to know the person.
Do not reject someone because nobody loves him or her,
Accept and include everyone.
It is not, because a person is shy that he or she is not
kind,
Just try to talk to him or her
Do not follow the trend, like sheep,
Assume your own tastes.
It is not because you will be judged that you must care,
There will always be jealous people for everything.
Do not pay attention to the looks of others,
You're unique, you do not have to change for them.
And finally accept yourself as you are,
Big, slim, tall, small, with spots, too long hair, square face
It is the key to happiness*

Stop terrorism

Have you heard the news ? Dead people again, destroyed family.
Don't speak too loud , someone could hear you.
We can't speak about it, we have to remain united to face terrorism altogether.

We are united, we are not afraid of you.
All those murderers who destroy families,
We say no.
They want to turn France into a dictatorship,
We say no.
We have the right to live without being scared all the time,
Stop terrorism.
You lead young people to horrible actions,
We say no.
You can't decide who has to die and who has to stay alive,
We say no.
You use muslim religion to justify your actions,
We say no.

We speak for Madrid, They just wanted to travel or just go to work.
We speak for London, They just wanted to take the public transport.
We speak for Paris, They just wanted to express their opinion with drawings.
We speak for Paris, They just wanted to go to Eagles of Death Metal concert.
We speak for Brussels, They just wanted to take the plane and travel.
We speak for Nice, They just wanted to look at the fireworks.
We speak for Berlin, They just wanted to celebrate Christmas.
We speak for New York, They just wanted to work peacefully.

I'm France.
I'm England.
I'm Germany.
I'm the USA.
I'm Spain.
I'm Belgium.
I'm Tunisia.

We are united.

SAD SOCIETY

Sad society
Let the youth act
It's time to change
We don't deserve it
It's in our hands

Fear, blood, these are the innocent people's daily life
Bombs, «boom», bombs, «boom» these are the noises that they hear
Everyday this is war, horror, destruction
How can they live with so sad emotions?

Sad society
Let the youth act
It's time to change
We don't deserve it
It's in our hands

Humans can destroy their humanity for power
This is what happened with Hitler
This is what is happening with Poutine
This is what will happen with Trump
They may think that they are allowed to choose our present and our
future

Sad society
Let the youth act
It's time to change
We don't deserve it
It's in our hands

Nowadays, people can't be proud of their colours
It's sad that some people want a unique and uniformized society
Even between gender, discrimination is omnipresent
Children, women, gays, handicapped people: all the differences are
negative debating issues

Sad society
Let the youth act
It's time to change

We don't deserve it
It's in our hands

Slam about Poverty

Say no to poverty
Don't give up , hold on
You will no longer live in misery
We'll find a solution

Whether they live in India or Africa
Poverty is there
No money , no house , no school
They don't have any future

Say no to poverty
Don't give up hold on
You will no longer live in misery
We'll find a solution

Whether they work hard or not at all
Aches and stomach cramps remain the same
The small amount of money they earn is not for
them
This intensive work will give them pains during
their life

Say no to poverty
Don't give up hold on
You will no longer live in misery
We'll find a solution

We talk about those who are far away
But there are also people in need close to us ,
around the corner
Whether it is hot or cold they have no choice
What they eat depends on the passer-by's
kindness

Say no to poverty
Don't give up hold on
You will no longer live in misery
We'll find a solution

Finally poverty is everywhere
Let's fight against it

TEENS' STUPIDITY

I stole in shops
I smoked at school
To be cool but
I was caught

When you act stupidly, you fail and you go to jail.

I am drunk
and I can't think any more
I made my mother cry
Because I got bad marks at school

When you act stupidly, you fail and you go to jail.

I sold pills and drugs
and then I came back home
that is how I earned my life
The police came...

When you act stupidly, you fail and you go to jail.

Once, we drank some bottles of alcohol
We broke our lives
Neighbours told us to stop
but we wanted to go on

When you act stupidly, you fail and you go to jail.

When we ride our scooters
In the streets we are crazy
we end up in hospital

When you act stupidly, you fail and you go to jail.

SCHOOL

Too much time at school, I can't play videogames and badminton.

Not enough breaks I would like holidays.

Too much homework, I'm tired

So less homework, less school and more time for myself.

BUT school is important because I can have a job

I like Maths because it's important to count well.

I like History because it's our everyday life.

I like science because we do experiments.

School is also important to meet friends and to learn many things.
