What is a good life according to you?

This question has been stuck in my mind for a while, I never thought ever, what is a good life? When I think about a good life I think about what makes me happy

A good life in my opinion

I always loved to dance since I was a little kid, many people might think that "dance" is just a way to move your body on music but for me it is not just that.

For me

By dancing I can expreme myself and I can tell any story I can. I can telll how I feel, if I am angry, sad, happy or more and this is a good life acording to me.
