HandiVet Ltd. is a Student Company that develops a real economic activity by producing and selling different products.

We love to work with our hands and that's why we constantly master, glue, decorate, plant ... We like to create something that pleases, leaves a memory and smiles.

We created HandiVet Ltd. rather for our own amusement, but things have evolved so that we are able to enjoy the things.

Working with paper, soil, fruits, nuts has become a core passion of ours.

Look around and see what we like, what we like to do, what colors we prefer, and maybe what kind of persons we are.

Have a nice walk!

The Bussness Idea

**Paper
handmade
greeting cards
& accessories**

Production of:

Flowers

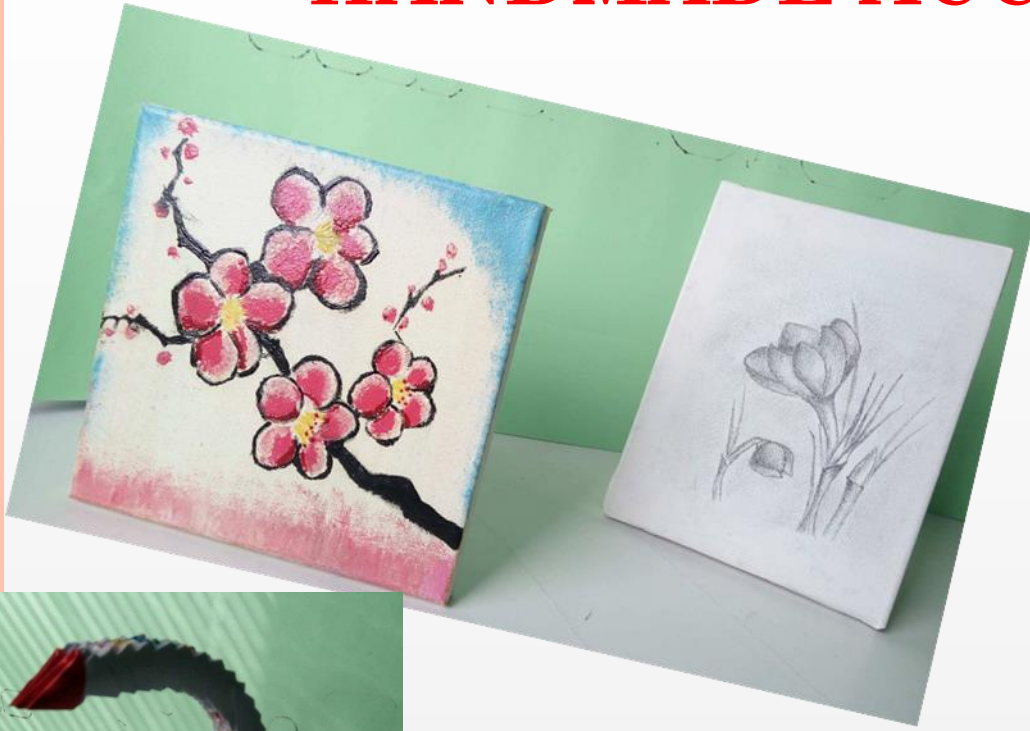

**Dry fruits &
