The Blue Whale challenge is an online challenge, this game was born in Russia in 2013. The creator is a Russian psychology student. But he was arrested.

It is a challenge that causes self-harm.

You are attracted to social media.

The Werther effect is a psychological phenomenon of mass in which a suicide report can cause a number of others.

Jonathan Galindo

It is a very widespread phenomenon in the United States, which is also spreading in Europe.

It offers young people increasingly daring challenges of courage that culminate in acts of self-harm.

This is an individual wearing a Goofy mask but in a horror version.

The figure of Catpinik has nothing to do with the dangerous online game.
