

LETTER EXTRACTS

Dear Future Me,

I wish you are reading this with a smile on your face, remembering everything we've been through. How is our dog? Is he healthy? I can't wait to see him in the future. I wanted to ask a few questions about You. Are You in a good place mentally? And are You financially independent? How is our family? Are Mom and Dad happy? What about my brother? Is he healthy? Are you studying? If yes, are you happy with what you are studying? Remember that you don't need to have everything You wanted as a kid even if you managed to fulfil one thing you have already done enough. I don't know what to ask You right now, because I don't feel like I know you well, but whenever you are reading this, think about connecting with yourself, and write a letter to yourself again, maybe then you'll have more questions. For now, I would like to say that this made me excited for the future, made me excited for meeting You.

-Past me.

I know that life right now doesn't seem so far. With all the rumours and bad things happening. I hope we finally feel free and we are able to travel somewhere warm. Right now it's quite cold in class. I would really like to drink lemonade near the sea. Without all the worries about exams and other people. I hope that all the money that we are saving right now, could help us grant that wish! Right now, I'm thinking about Bulgaria. It's ironic, because all around our school i see only trees with yellow leaves.

I hope I am truly happy. Do you think that I am living my dream? What I'm doing now, where do I live? How old I'm now? What are my wishes from lite now and how I'm reaching for them? Don't forget my career dream, try to reach for it every day. Always stay creative and do sports. Don't forget that if you really want something and you know it's worth it, you have to work hard for it and never put your hands down.
