

Dear older me,

Firstly, I would like to ask you if you've chosen your paths in life. Right now you are very confused about everything and you are sad because you are growing up and I hope that you will chose something that makes you happy. I know that now your life is a quite challenging right now. You are taking part in too many extracurricular activities and you feel overwhelmed by all the tasks that you have to accomplish. Are you still in ActingUp? How is your relationship with tour colleagues from AUP? Do you feel appreciated in ActingUp? Do you still love going to the gym? How was our 18-year-old party? Did you get the driving licence? How is your relationship with your parents, especially with your father? How is Pochi? Are you proud of yourself? Is the global pandemic over? Are you going to school? Do you have any new friends? How was your last Christmas as a kid? Have you started producing your own money? Have you visited any country with Erasmus, since you are writing this letter during an workshop in the first virtual mobility. Ok, I believe that these are enough questions. I hope that I will read this letter in a year and I will answer all the questions.

I want you to know that I really love you and I admire how courageous, strong, intelligent and beautiful you are.

Lots of love,

17-year-old me
