

Aurora Negrini

The Erasmus project has been a great experience where i've known lots of lovely people. At the beginning i always stayed only with my 3 friend Maddalena, Angela and Greta because we were a bit embarassed but after we've known the others of the group and it was really beautiful.

We've done many interesting and nice activities where i've found out new things. Some of the group have already left for their mobility and after they've spoken about it in class and it was really amazing.

i'll leave for my mobility in 2 years to Reunion Island with my friend Maddalena and i can't wait to go there.
