

Erasmus project has been a great experience. it has helped me a lot; I was quite shy at the beginning of the year, but during the year I've learned to open up to people and fight my shyness and insecurity. i think I've been really lucky because I've known a lot of lovely people from my school and I'm sure that I will know also a lot of people from different countries all around the world.

Through all the activities that we've done, which were all very interesting and motivating, I've improved my english and the other languages and also my communication skills.

I haven't left for this project yet and so I haven't known the guys from the other countries yet, in fact I can't wait to go and meet them.
