

## **MY EXPERIENCE**

My Erasmus experience has been very important for me, I learnt a lot of new stuffs and I knew fantastic friends.

At first I neither knew my erasmus group, but now with a lot of them I have a great relationship.

With Erasmus I learnt to be more empathic with people in general, and I also learnt to give the best part of me.

I also did a week in Aldaia, Spain, where I met a lot of guys, new cultures and where I understood that the best way to appreciate little things is live them with other people.

I'm going to do the long mobility of three months with four of my friends and I'm really excited and grateful to Erasmus to permit me to do it.

I'm really enjoying all of this and I'm so happy to continue this project.
