

My erasmus experience was really beautiful. I learnt different cultures and a lot of ways of doing, this is really important for me because I want to learn a lot of new things! With my erasmus experience I could improve English and Spanish that are two out of three languages that I study at school. It was a fantastic experience I did a lot of new things, I visited some interesting museums, I eat new typical food but the best was that I knew a lot of guys with my own age. This way I could know their hobbies and I've found people with whom I share the same habits.

During this experience I felt some different emotions, we laughed, we cried, we also anxious to know our spanish friend.

I liked this experience so much to decide to go in Valencia for three months.

I hope that this different adventure can give me new teachings.
