

ERASMUS: THE EXPERIENCE THAT CHANGED MY LIFE

This Erasmus project has been the best experience of my whole life. It has changed my way of living and thinking. I've learnt plenty of interesting things and facts about other country that I didn't know. I've always dreamed about going to Spain because I love spanish culture, language and ,of course, food and thanks to the Erasmus project I had the big break to visit this amazing country. I made new friendships and met new people. Everyone had a different culture and attitude but they were all kind and respectful and fun. That has been an experience that I will never forget!
