

Greta Cricca : What has Erasmus done for me?

Erasmus has been one of the best experiences that I've done during this year. Thanks to it I could improve my English and my Spanish because I had the opportunity to go to Spain and to talk to other people from all over Europe. It was a travel that has changed my life.

I went to Aldaia with Angela with whom I shared my host family. Before the Erasmus, Angela and me we were only classmates but now she's an important friend. I lived with her one week in the same house and we shared everything. In just a few days I discovered an amazing person.

Our partners, Silvia and Oscar, were really kind and friendly as their family. Our host parents treated us like daughters, giving us an unforgettable week. Every single person who I met left me something. I could know a new culture, living the days in Aldaia as a Spanish girl, I established a friendship with two girls of my school, Corinna and Sara and I visit beautiful places like the city of Valencia. I fell madly in love with this place that in two years I will return to Aldaia for a long mobility.

I'm really looking forward to it and I hope one day to have another experience like this...

*valencia forever in my memories*
