

ANGELA BERNABEI

Erasmus project has been a big opportunity to learn new things, such as new cultures, ways of living, customs and habits. At the beginning of this work I just knew three girls, my classmates, but gradually I got to know a little bit of everyone.

Thanks to this experience I went in Aldaia, Spain for one week. I stayed in my Spanish partner's home with Greta, who participate in this project, too. There I improved my English but especially my Spanish, because we mostly speak Spanish. My partner and that of Greta (Silvia and Oscar) were very kind and friendly as their family too. We've made new friends and we've often dated the guys who took part of the project in Valencia. We were all different from each other, but that's why we learned more. After this travel I have established a wonderful friendship with Greta, who has become a special friend, but also with Corinna and Sara. Every time I have an Erasmus lesson I always have a lot of fun with my friends but we try to hard work, too! In two years I'll go with Greta to Valencia again, but this time for a long mobility for three months. I really can't wait to go there, I hope to see all the people I knew this March and to learn lots of things again!

Thanks Erasmus!!
