

Animoto je zelo preprosta aplikacija za izdelavo filmčkov (slika + glasba + besedilo + video) in je res primerna za izdelavo "filmčka":

PADLET

Učne enote (ali celoten predmet) lahko organizirate s pomočjo aplikacije PADLET.

Padlet je spletna e-storitev, ki je zelo enostavna za uporabo.

Gre za veliko spletno tablo ali zid na kateri lahko pišemo, delimo slike ali posnetke. Pri tej storitvi bi izpostavili dve posebnosti:

- vse kar ustvarimo, lahko vidijo vsi, ki so pri tem sodelovali
- posamezna tabla/zid se lahko dopolnjuje kjerkoli in kadarkoli
