

To mix or not to mix

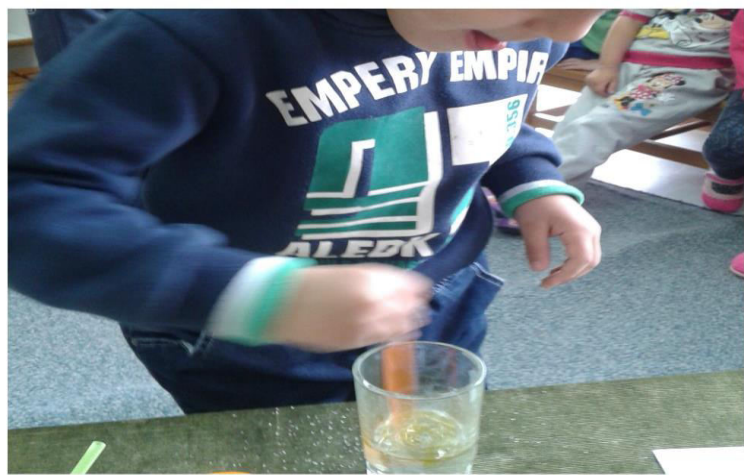

We mixed water with other materials and we divided them in 2 groups: those that mix with water and those that don't

We used liquids, powders and solid materials such as: sand, rice, sugar, cinnamon.....

...oil which we saw that stays on top of water's surface and then tried to separate it from water...

...we also used soil and then tried to clean water by removing it, using different ways...

Removing soil from water

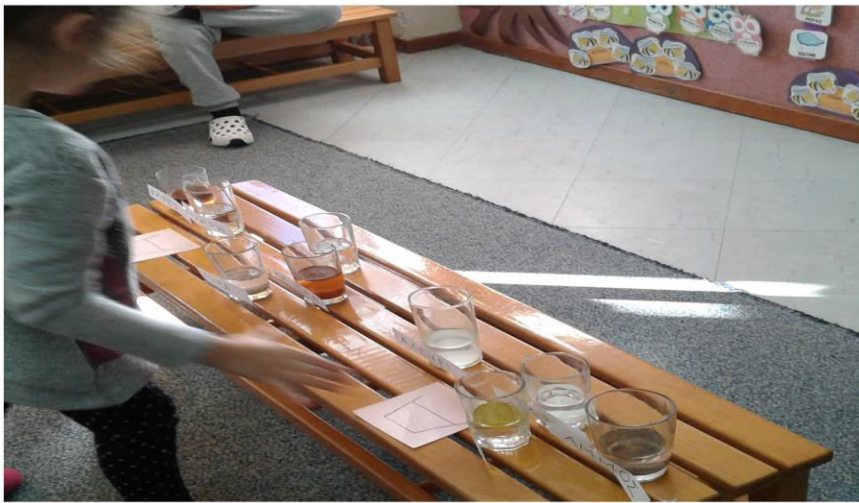

We also used flour and salt...

And tried to divide flour from water.

More mixtures....

We also used coffee and mixed it with water...

Στον παρακάτω πίνακα σημειώσε με ένα Χ εάν το νερό διαλύει το σώμα ή αν δεν το διαλύει.

ΥΛΙΚΑ	ΔΙΑΛΥΟΝΤΑΙ	ΔΕΝ ΔΙΑΛΥΟΝΤΑΙ
ΖΑΧΑΡΗ	X	X
ΧΩΜΑ		X
ΑΛΑΤΙ	X	
ΚΑΦΕΣ	X	
ΛΑΔΙ		X
ΑΜΜΟΣ		X

Forming the 2 groups: mixed and not and feeling happy as real scientists!!!
