

Memories by Francesca Arcuri

It was my first Erasmus experience: it was wonderful: I met new people, all nice and welcoming, I made new friendships with the Catalan, Croatian and Polish students. We arrived to Poland in Warsaw, and then we moved to Sieradz where we spent our days all together. Here we held various workshops, some based on emotions and others on our own traditions in order to prepare ourselves for the Festival of Cultures. We practiced dances of the other nations and with a local teacher all together we learned traditional Polish dance. The following day, wearing the traditional costumes, we performed the dances and ours was the one that mostly involved the partners. Even the show of sweets and traditional objects have attracted the curiosity of the boys who have enjoyed themselves reproducing the sounds of our musical instruments.

All together, we moved to Krakow where we visited the beautiful city and then we returned to Italy enriched with a new unique experience.

My hope is to participate in other Erasmus experiences so as to improve my language skills and meet new people, cultures and countries.
