

Project: «The Future Begins Today!»

EVALUATION for students from SPAIN

Poland 06/05/19 – 10/05/19

The final results

1. White Hat (data and information)

As for data and information about training in Poland, our partners mentioned the following events:

- 1- Icebreaker activities to get to know each other with traditional folk dances. Teamwork activities.**
- 2- Workshop on alternative communication**
- 3- Attend school presentation**
- 4- Partners presentations of traditional folk dances**
- 5- Study visit to Krakow to learn about Polish cultural and historical background**

2. Red Hat (feelings and emotions)

As for feelings and emotions during the meeting were the following:

- 1. Happiness:** In different moments such as when we met some new friends, when we saw many places that we didn't know and so on. When the Italian and Croatian team helped the one who lost his phone to find it.
- 2. Sadness:** When we had to go out and accept that we wouldn't see our friends from other countries again. Also when we received the news that the canoeing activity was cancelled. When one member of the group lost his phone.
- 3. Curiosity:** While we were learning foreigner countries' costumes like traditional dances, food, instruments, important places and monuments...
- 4. Fury:** When we welcome a person that came to the project to know the Croatian team, and she looked at us badly and we see unfair that she didn't talk with other countries in English. Also when a person of our team had to dress up and make up again, as they forgot filming a little part of the silent movie. When the suitcase of one person of our team was broken and people didn't mind it, so they took it without pity.
- 5. Deception:** When sometimes teachers chose our food in some restaurants because there, they eat other kinds of food that we don't like and we feel they could have thought about that.
- 6. Pride:** When we did our dance and our presentation of where we came from very well and when we saw that we were able to talk to other people in English perfectly.

3. Yellow Hat (benefits and positive view)

Benefits and positive view:

- 1. Learning to dance other countries' dances and eating different types of food.**
- 2. Meeting new people and being able to speak English with them.**

3. Visiting new places and also to try different dishes in some restaurants while talking with friends.

4. Buying a lot of souvenirs from another country.

5. Disconnecting from our routines and doing it more productive, without so much technology (mobiles phones)

4. Black Hat (critical judgment)

As for critics there were some things:

1. The video calls by E-twinnig were terrible because of the bad quality.

2. There were people that didn't know how to speak English, and it doesn't make sense in an Erasmus project.

3. People who organized what we were going to eat at the restaurant, could sometimes ask for what we wanted.

4. We feel that it is not a good idea to translate each sentence of all presentations to Polish, because it became too slow and boring, so they could translate only a little summary at the end.

5. We didn't have a lot of time to buy things the day we went to visit the most important place of Europe.

5. Green Hat (creative thinking and new ideas)

1. We think that we could have gone to the capital, in this case (Warsaw).

2. We believe that we could have done more activities in the palace, such as an explanation of its history, visiting all rooms or playing games there like chess.

6. **Blue Hat (process control and thinking)**

All our team are convinced that Erasmus project is the best thing students can do to socialize with other people from other countries, learning how to communicate in English in different situations of the day and having new opportunities to visit the world and learning new cultures and customs. So, it is also a desconnecting week that could help teenagers to eliminate stress. In conclusion, we hope repeat it another time in our lives because the only experience that we have already had in our lives couldn't be better!!!

Thank you! 😊
