

Project: «The Future Begins Today»

EVALUATION for pupils from Catalonia

Virtual mobility 24.-28.5.2021.

The final results

1. White Hat (data and information)

As for data and information about training in Italy, our partners mentioned the following events:

Presentation of the Italian school

Presentation of the film Dreams come true

Presentations: The Impact of Covid on Our Present and Future

Presentation on volunteer peer support activities that we did during the project

Guide presentation

Film-Best moments of the project

2. **Red Hat (feelings and emotions)**

As for feelings and emotions during the meeting were the following:

It was actually a combination of feelings. It was the first time we encountered an online mobility and we did not know much how it was going to be.

We had done a great effort to have things ready and expected everything to flow successfully.

As the days went by, we felt more confident with our work .

The last day meant our good bye day and was a bit strange to say farewell to our partners on the screen.

3. Yellow Hat (benefits and positive view)

Benefits and positive view:

We all learned new strategies to communicate and fulfill our objectives. At least, we could finish the project, the alternative being leaving things unfinished. The resulting product was fairly acceptable.

4. Black Hat (critical judgment)

As for critics there were some things:

Either teachers and students did not enjoy finishing their contact this way, but, of course, this is not at all related to host responsibility.

Some bad connection at some points which could be overcome at the end.

5. Green Hat (creative thinking and new ideas)

I think that teachers did a very good job in developing the online mobility. It has been an example of how teachers can adapt to drawbacks and overcome problems to have their students cooperate and complete work.

We adapted to the situation quite successfully.

6.

Blue Hat (process control and thinking)

I think of that all activities, school/personal presentations...were planned alright because all the teachers made it possible.

Thank you! 🖥️
