- Learning about different cultures and traditions
- The hotel was great, and the breakfast was tasty
- The students were friendly, and we talked a lot

- The food in the restaurants was great and everybody from our team liked it

4. Black Hat (critical judgment)

As for critics there were some things:

The path from our hotel to the school was long and exhausting.

The Italian team didn't teach us their traditional dance.

5. Green Hat (creative thinking and new ideas)

Students should have talked about the future since the title of the project is "The Future Begins Today"

More free time for students.

Idea for a workshop: Writing a letter to yourself in the future (a few years from now)

More different workshops- students are allowed to choose which they would like to participate in

6. Blue Hat (process control and thinking)

Erasmus+ projects connect people and new friendships are made.

It was a great experience and we would like to do it again.
