6. Blue Hat (process control and thinking)

The mobility was an excellent opportunity to share different school strategies to lead to the same goal: getting students know who they are, discovering talents, and think about their future plans.

Making a film, rehearsing and performing it, is a rather time-demanding activity. Yet, we believe, we all did a great effort to get a successful outcome.

Above all, we would like to thank the Croatian team for all the job done in making us fell like at home and great effort to accomplish the project expectations.

Thank you!
