

ROMANIAN MOBILITY

Yellow team

Nika Matkovic
Arturo Sosa Cohen
Baha Enes Akbal
Fidan Doner
Simon Florina

MONDAY

Baha Enes Akbal – Today at school we learned how to make origami. We made a bird from a towel, and a bow tie from paper. After that we went to the horse farm, it was very fun. We rode a horse and I liked it a lot Thank you for everything romania

TUESDAY

Simon Florina - On the second day of the mobility we visited the County. The first stop was at Virginia Linul, where we had a workshop. Me and my new friends made bracelets, it was a very enjoyable activity. After that we visited Maierul, where I think we had one of the greatest experiences. The children from Maierul offered a show, depicting the traditional Romanian life. After that we visited the gold water and the Rodna mountains. Even doubt it was a very busy day, I liked it because I could spend time socialising with my new friends, and I think they enjoyed learning about the Romanian culture.

WEDNESDAY

Fidan Doner - Today we went down to the salt mine and had a nice tour inside. There were shops, an adventure park, a park for children, tennis tables for adults, a church and small cafes. There was wifi so that people could communicate easily. Thank you to Romania for this beauty.

THURSDAY

Nika Matkovic - I liked Friday the most. It was the most relaxed. I liked that we went to classes first. I was in an English class where we guessed the languages of the songs, watched a Ted talk clip. Lorena did a great job. After that we hung out and had dinner together in the evening. I think that was a great way to say goodbye. I liked that we danced and that everyone was relaxed. I was surprised that they also made us a cake, and I was surprised by the great selection of music. These 7 days have been some of the best for me, and I think they will stay in my memory forever.

FRIDAY

Arturo Sosa Cohen - Today it was an incredible day, because I could become more close with some people and see the differences between the shops of my country and the ones from Rumania
