# Boardgame: Păcălici

- ▶ Păcălici is a game that can be played by 2-6 players. The game pack contains 33 cards, of which 16 are pairs, representing the national costumes of various peoples, and one card represents Păcălici ("Fools") .

# How to play Păcălici?

- ▶ After the cards have been well mixed, 4 are dealt face down to each player. The rest of the cards are placed face down on the table and the player to the right of the person who dealt the cards begins the game.
- ▶ If he finds in his cards one or more pairs (the national costume of the same country for men and women) he places them on the table face up and says: "further". If he has no pair, takes a card from the top of the pack. If he still cannot form a pair, he says "further" and the next player continues to do the same. After the cards on the table are finished, each player, in turn, without looking, draws a card from the player on his right.

The first player who deposit all his cards on the table wins. If more than 2 players play, the game continues until one of them remains in the hand only with "Fools". At that moment the player has lost the game and can be given various funny punishments (example: jumping 10 times in one leg, playing, tumbling etc.). He will also divide the cards in the next game.
