The meeting was well organised however it took a Little bit too long.the feeling being ther was very exciting.i Really enjoyed it!

ALL ACTIVITIES HAVE BEEN PERFECTLY DESIGNED, ORGANIZED AND PERFORMED.

Exceptional organization, the duration of the activities was relatively fair, perhaps I would have liked more to have some more free time

Everything was so amazing. It was a plesure to participate in every activity. All of the activities were so good organized and so interesting!

All the activities were interesting; we learned new things,we enriched our knowledge of the Turkish culture,cuisine.I consider this mobility a great oportunity for all of us to enlarge our vision on life.We made friends.Everything organized by your team was just perfect!

I chose this grade because everything was on point with the scheedule that was presented to us. The organization and the duration of the activities was verry good.

The organization was very good and we were able to have fun

Very nice experience and excellent organization from every point of view, for very stimulang activities proposed, for visiting unique and unforgettable places that will remain indelible in my heart and mind and for the warm welcome.

The whole meeting organisation may be evaluated as excellent, the timing and the activities topics were great, interesting, interactive. Everything Washington excelent.

The meeting was well organized with only few timing problems, duration of activities was appropriate, everybody was safe.

The general organization was excellent, there were no dead times, we continuously had activities, the trips were very good organized, I was actually very impressed by the whole mobility.

## 7. Explain the answer to the previous question.

All activities were pretty interesting, yet my favorite was visiting Kapadokya and the Turkish party

All activities were in line with the theme of the project. We had the opportunity to discover the difference between the old and the new. We learned valuable information about religion, culinary peculiarities, and how Turkish pottery is made.

The issues were current and contemporary to the point that thanks to the study carried out previously at school I was able to reconnect also to more recent questions (Cappadocia)

All of the activities were different as we were! Different but together, no? :) It was fun and unforgettable

I believe that every activity was relevant, interesting, attractive, gave us new information, I can use in our further teaching activities.

In my opinion the activities were relevant because we learned about the history of Turkey and Ankara. At the same time we created strong relations between us, the students.

The trips we did were one life trip that I wish to do again soon with my family

All the activities carried out were all very interesting, creative and varied, both for students and teachers.

All the activities were very well organized and combined. These multiple activities we did during five days gave us the opportunity to do interesting and funny things (to paint in the painting workshop, to draw in the style of Muslim architecture) to watch and learn about Turkish music (the show the Turkish students offered to us as a welcoming in their school); but also gave us the opportunity to visit many places with a great historical and religious load and in the same time provided us knowledge and information about customs, traditions, history, traditional food, music and dance.

I enjoyed this meeting content, it was well prepared with interesting activities, the students cooperated well. It was interesting to learn something new about traditions and music.

The meeting content was fantastic, because I learn so many things about Turkey, about the

natural landscape, about religion, food, education etc. Also, there was a very good balance of the activities types, we had practical activities and study trips, and we were continuously engaged with the others in doing something. I also loved the fact that we could talk with both teachers and students from DSAL.

Fully satisfied about all activities proposed and organized.

I'm taking home excellent memories with great people♥, I've learned a lot about Turkish tradition and culture.

The great soul of the hosts and the joy of all participants to meet, reunite, or get to know each other.

the beautiful experiences and many new friends around the world.

I took memories, pictures and the memory of new friends. I took happiness from this project.

A luggage of new knowledge.

I am taking home good memories and great friendships.

A very good collaboration and some very good friends.

I believe that this international project is a very important moment of human and cultural growth that every teacher and student should try. In diversity lies unity.

Great memories, New friends.

I'm taking the best impression, the most important was for me the cooperation between different countries, how the students were excited to spend time together and learn something about another traditions.

Friendships that I hope they will last forever, fantastic memories, new ideas for future activities and projects, and the desire to continue to improve this project. And to cook Turkish food by myself!

Specially so many good friends and lovely places to remember for all our life.

I know from experience that the work volume is huge, but I am confident that this project/mobility will change in better the life of our students due to amazing people like teacher Serap, and the other teachers who helped her in organizing everything.
