

# GAME REVIEW

<p>Describe your game briefly. What sort of game is it? What is the goal?</p>	<p><b>Crôa</b></p> <ul style="list-style-type: none"> <li>- Strategy game</li> <li>- You have to be the last queen's frog on the boardgame.</li> </ul> 
<p>Players (number, age)</p>	<ul style="list-style-type: none"> <li>- 2 until 4 players</li> <li>- Since 6 years old</li> </ul>
<p>Content (what do you need to play?)</p>	<ul style="list-style-type: none"> <li>- 64 tiles (mosquito, water lilies , vase, male frog, pike, reed, trunk)</li> <li>- 1 queen and 6 baby frogs per person</li> <li>- 5 tokens of male frog</li> </ul>
<p>Rules (explain the different steps)</p>	<ul style="list-style-type: none"> <li>- Put all the 64 tiles on a square of 8 by 8 in the hidden side</li> <li>- Put the queens in every corner of the board and put 2 baby frog next to the queen.</li> <li>- At your turn move one of your frogs in one of all adjacents tiles. When you go on a tile where another frog (queen or baby) is, you eat it</li> <li>- If the tile was hidden, turn it on the right side.</li> <li>- <b><u>TYPE OF TILES :</u></b> <ul style="list-style-type: none"> <li>o <b>mosquito</b> : you can move another frog,</li> </ul> </li> </ul> 

- **water lilies** : the frog must reply,

- **vase** : the frog can't play during one turn,

- **male** : if the queen goes on this tile, she can have a baby frog,

- **pike** : the frog is eaten,

- **reed** : nothing happened,

- **trunk** : 2 baby frog can be on this tile.

Then the player on your left have to play.

How does the game end?	<p>When you eat a queen of another player, the player loose but the game continu for the other players, apart if it was the second to last queen.</p> <p>You win when just one queen is on the boardgame (when all the other queens have be eaten).</p>
Assessment (What did you like? What didn't you like? Why?)	<p>We like the surprise when we saw our cards because we don't know what can it be.</p> <p>It was funny when we eat other frogs or when you return the pike card.</p> <p>The bad side is that you can loose really quickly.</p>
