

GAME REVIEW

<p>PICTURE</p>	
<p>TITLE</p>	<p>Conect 4 shots</p>
<p>BRIEF GAME DESCRIPTION / GAME TYPE/GOAL</p>	<p>In this game the goal is conect four balls with shooting to the box</p>
<p>PLAYERS (number, age)</p>	<p>You must play with 2 players no more no less</p>
<p>CONTENT (What do you need to play?)</p>	<p>The box has balls for shooting inside the box, and there are of two different colors: red and yellow.</p>
<p>RULES (explain the different steps)</p>	<p>You have to mount everything and each player with his balls of his color has to be pulling to put balls in the box. They have to bounce before entering. It's like the original game but with balls and that complicates everything</p>
<p>WHEN DOES A GAME END?</p>	<p>The game ends when one of the two players conect 4 balls shooting.</p>
<p>ASSESSMENT (What did you like? / What didn't you like? Why?)</p>	<p>I like this game because this change is so good. I like the idea of the balls. I don't like the idea of the ball must bounce before entering the box. Because for me it's more funny without bouncing than bouncing.</p>
