

Chocolate Cake Recipe

I am going to teach you one of my favourite recipes.

To make this cake you will need:

- 4 eggs
- 1 and $\frac{1}{2}$ cup of sugar
- 2 cups of flour
- 1 cup of oil
- 1 cup of boiling water
- 1 bag of powdered chocolate
- 1 teaspoon of baking powder

For the cake tin:

- Butter
- Flour

1. First preheat the oven to 180°.

2. Put all the ingredients into a bowl and, with a mixer, mix them up.

3. When the mixture is homogeneous, grease the cake tin with butter and flour.

4. After greasing the cake tin, put the mixture into it and bake in the oven for 40-45 minutes.

5. Then after 40-45 minutes, remove your cake from the oven.

6. Let it cool off for a little while, then remove the cake from the cake tin and you have your cake ready!

I hope you enjoy it!
