Teide, the third highest volcano in the world

El Teide remains active: its most recent eruption occurred in 1909. The United Nations Committee for Disaster Mitigation designated Teide a Decade Volcano because of its history of destructive eruptions and its proximity to several large towns. The volcano and its surroundings comprise Teide National Park which was named a World Heritage Site by UNESCO in 2007. It is one of the most visited National Parks in the world.

From the car park, tourists can take the 10 minute cable lift to 3550 m. To climb to the summit special permission is essential by request to the National Park Office in Santa Cruz. From the top there is an amazing view all over the island.

The ascent by foot starts at the base of the "Montaña Blanca", at an altitude of 2200 m. Don't underestimate the short walk as the gradient and low oxygen levels make it challenging even for experienced walkers. After a relatively gentle start up a 4x4 track for around 4 km, you begin the steep and spectacular climb, ascending 530 m in just over 1.5 km, when you will reach the recently rebuilt Altavista Refuge. This offers climbers a bed for a maximum of a night and kitchen facilities. After a further kilometre and 250 m ascent, the path joins another leading to La Fortaleza viewpoint, which follows the contour around El Teide to the cable lift.

QUESTIONS

- When was the last eruption of Teide?
- What is the name of the refuge in Teide?
- What happened in 2007?
- Do you know its height?

CARDINAL DIRECTIONS SONGS

LYRICS

North, south, east, or west,
Which direction do you like the best?

North, south, east, or west,
Which direction do you like the best?

It's going north,
It's going south
It's going north, than south, than east
Its going north,
It's going south
It's going north, than south, than west...

North, south, east, or west,
Which direction do you like the best?

North, south, east, or west,
Which direction do you like the best?

4 cardinal directions,
That I know,
North, south, east and West we go,
Or mix-em all up,
Then go fast, not slow,
To the sunshine or the snow!

I like south!
She likes north!
And they're loving west and east!
She likes east!
He likes south!
Their favorite's north and west!

North, south, east, or west,
Which direction do you like the best?

North, south, east, or west,
Which direction do you like the best?

Its going north,
It's going south
It's going north than south than east,
Its going north,

It's going south
It's going north than south than west...

North, south, east, or west,
Which direction do you like the best?
North, south, east, or west,
Which direction do you like the best?
Look at a map and try this!

Point north,
Point south
Point west,
Point east,
The first letters of west and east
Spell the word "WE"

Point west,
Point South,
Point east,
Point north,
Point west,
Point south,
Point south again,
Point west then north then east!

North, south, east, or west,
Which direction do you like the best?
North, south, east, or west,
Which direction do you like the best?
