

Dear Erasmus student,

Ljzda - Slovenia

22/10/2021

I hope you are doing well, because I know I am.

I'll tell you a little about myself first.

My name is Martin and the sports I practiced are:

1. Kick boxing for 3 years but then I quit because of an injury.
2. Karate for 2 months because I was too busy with kick boxing.
3. Rowing for 3 years and a half and still doing it.
4. Volleyball; actually I didn't start yet because of an injury.

That is everything for sports; what sports do you practice?

Also up until this summer I was REALLY into videogames, editing, programming and building computers. The main game that I played was Minecraft and constantly switched games (ex. when it was still popular I played Fortnite). I really like archery because I have a good aim and hand-eye coordination. My favourite foods are meat and fruits such as green apples, watermelons, etc. Also coming back to videogames, I have a really realistic driving simulator and while I stopped playing other games I still play that. What do you like?

I'm really sorry for my horrible calligraphy.

I also hope you have some fun tastes.

Oh, I almost forgot to say that I'm really good at cooking but I'm also lazy so I usually just make an omelette.

Have fun writing me a reply, tell me a lot about yourself and stay safe.

Bye!

Martin Krajcar
