

## EVALUATION

carried out on 3rd June 2022

during the mobility C3 in IZOLA, SLOVENIA

After having visited the archaeological site of the Roman villa at Izola and having had a workshop about Roman handwriting there, the students answered a kahoot quiz, some individually, some in pairs on their phones, this is why there are only 25 students that participated at the quiz, from 5 countries. The quiz asked them to answer to 10 questions fast, so they managed to be only 41% successful.

The screenshot shows the Kahoot! report interface for a quiz titled "Roman villa marittima". The overall score is 41% correct. A "Practice makes perfect!" message encourages playing again. The report includes statistics for 25 players, 10 questions, and 11 minutes. It also highlights "Difficult questions (4)", "Need help (5)", and "Didn't finish (20)".

The questions to answer were the following:

The screenshot shows the "Questions" tab of the Kahoot! report for "Roman villa marittima". It displays a table of 10 questions with their respective correct/incorrect percentages.
