Objective

1 EPAL Chios is the professional training center of one of the project partners. In this activity we want to know its surroundings: where it is located, important cities around, details of its history, traditions, gastronomy, etc.

Exercise 1: Location

Find information about where the 1 EPAL Chios school is located: city and federal state. It places on a map the most important cities.

It carries out a study on the academic training that takes place in this school.

Analyze the means of transportation that allows access to this school, including nearby airports, trains, buses, trams, etc.

Exercise 2: History

Investigate the history of Chios and Greece.

Exercise 3: Gastronomy

"We are what we eat" is a popular expression that is also closely linked to our health. Each site has its own recipes, its own dishes. How do our Greek partners feed? Explore its gastronomy, highlighting typical dishes.

Exercise 4: Traditions and parties

Let's get to know our German partner a little more. Do you know what your school calendar is? What parties celebrate? Investigate, focusing your study on Chios and Greece.

Exercise 5: Monuments

Now it's time to find out what monuments, buildings, most important sculptures we can find in Chios and Greece.

Exercise 6: Celebrities

History is written by people, and this is recorded by the actions of their citizens. In this exercise we want to know the most popular characters in History, such as his main works, Chios and Greece, in different areas such as:

- politics
- art
- literature
- sciences
- etc

Exercise 7: basic vocabulary and expressions

Create a glossary of common basic vocabulary and expressions in Greek, Spanish and English.

Work methodology

Collaborative teamwork.

Documentation and exhibition

1. Only delivery for each group.
2. The documentation must be uploaded to the **Google Sites** of the IT Department. Permission will be given to only one member of each team to upload the contents. They must be accompanied by images and written explanations.
3. Follow the guide on "Oral Expression".
4. Students who have been selected for mobility must submit the documentation in English.
5. All groups will present the activity in class using their presentation.

Mark

This activity is part of the Erasmus + project "Cloud Computing in the European schools". All students must complete it. An increase of up to 1 point will be applied in the final mark of the professional module where it is given, provided that the grade obtained in the evaluation of the associated learning results is equal to or greater than 5.
