

# Look back on the last two days. What are your impressions so far? Are you enjoying the activities? What could we improve tomorrow?

I think this way is good

I really enjoyed it

Maybe try to have it a bit more organized with the time , but apart from that everything is perfect I

Awesome experience, can't wait to debate! se you tomorrow, thank you

I'm loving this experience. People are so nice and the presentations have been fantastic. So interesting, so excited for the debate!

thank you Polish team for all your efforts! The first two days were amazing! We only hope to see you soon and... in presence !

This project has been really intresting for the topic we are talking about. It has also been relly funny to meet new people.

that was very enjoyable. we have learnt so many things. thanks.

I very much enjoyed the activities! I think I learned a lot, yesterday's breaking the ice was also very cool.

# Look back on the last two days. What are your impressions so far? Are you enjoying the activities? What could we improve tomorrow?

I want to know if Gabriel from Sweden added me on G+

I am surprisedly enjoyed. I really liked activities.

I've learned a lot in these two days, and met amazing people. The presentations are all very fun and I hope that we can interact more tomorrow.

I was having fun. I think everything is going very well. The only flaw is the technical problems but there's not much we can do about that

really enjoyed talking and getting to know people from other countries

I think that it was fun, but I would like to do something more ambitious and creative. Unfortunately, I don't know what exactly could it be. I would say also that I hadn't too much opportunities to talk with people I would get to know better.

I love it! I met wonderful people so far and topics are really interesting

I have learnt some much new things. The lessons were interesting and encouraging. The occasion to get in touch with our International friends was really fun. Hopefully, there will be time to repeat it face-to-face.

The presentations are interesting and well done, usually we can understand well the English, it's pretty well organized. I'm enjoying the activities. I don't know what could be improved.

# Look back on the last two days. What are your impressions so far? Are you enjoying the activities? What could we improve tomorrow?

i really liked it i met new people i improved my english and i like my group firend they were so nice i wish i could meet them in real life

very cool, i like cheese and hamburgers and eating food

My impressions so far are good, I am enjoying the activities and I think we could improve our interactions

It would be better if everybody had a presentation ready before presenting, so there wouldn't be any problems along the way. Also, I would love to have more group lessons to meet with people I was in a group on Monday. More interacting with teens.

I really like the presentations and the kahoots, its interesting learning about the other countries and climate change.

very informative, learnt new things, met new people , maybe more icebreaker activities or something like them

Interesting arguments, we could solve technical problems before beginning

Everything is perfect and really enjoyed

the activities are helping me with getting to know more about climate change and about other people from across the world. it has bee fun.

# Look back on the last two days. What are your impressions so far? Are you enjoying the activities? What could we improve tomorrow?

I've really enjoyed meeting new people and learning more about all the impacts on climate change and the kahoots

I've enjoyed doing this project and I don't think that we can make it better and I like the kahoot

I've really enjoyed listening and learning from other students from other countries. The best activities are the Kahoots. To improve, there could be more discussions.

I have enjoyed doing this

I have liked the activities we have done so far and looking forward to tomorrow. I have also enjoyed getting to know other people and what it is like where they live.

I have been impressed how we all know about it.

I enjoyed listening to everyone's different presentation as well as the kahoot games. Also I enjoyed learning about their country. However I'm not sure on what you can improve on.

I just cried from happiness. I am very happy. I improve my English.
