

REVIEW OF THE OBSERVING OF THE LESSON

GRADE 10 A Number of the students ..... 17 ..... Subject Chemistry

Teacher Inta Pauliņa [Inta Paulina]

Theme ..... Chemical experiments .....

Observer Ulrike Uedelhoven

1. Teacher:

- Collaborates with the students to create interest and motivate them to learn
- Effectively uses techniques that recall students' experiences and background knowledge

She explains the experiment at the beginning.

2. Students activities indicate that the tasks, explanations, and questions of the teacher are understandable to the students.

The pupils seemed to have understood the work assignment

3. The teacher is targeted to use various forms of work, methods, strategies.

each student received his own job assignment

4. The teacher provides the opportunity for the pupils:

- Ask questions;
- Analyze and explain;
- Perform experiments;
- Obtain information, also using the e-environment;
- Collaborate;

5. All the students are involved in the learning process

yes

6. Lessons feedback is provided by:

- Teacher to students, to evaluate performance
- Students to students to evaluate progress

All students worked on their chemical experiments and also discussed each other.

7. The teacher creates opportunities for the students to develop;

- Planning skills;
- Skills to organize group work;
- Research skills;
- Skills to demonstrate mastered
- Skills to work independently;
- .....

The teacher has shown to the students the chemical experiment and the calculation of the chemical formulas orally.

Feedback about lesson

The students were able to understand the connections well with the chemical experiments.
